Contains FOS (a prebiotic that may help maintain digestive tract health) and antioxidants. Kosher, gluten-free.</p> <p>Per 4 fl oz: 170 kcals, 4 g pro, 5 g fat, 30 g CHO</p> <p>Flavors: vanilla, milk chocolate</p> <p>CAUTION: For use only under medical supervision.</p> | <p>Approved with Medical Documentation form.</p> | <p>4 fl oz (113g) cup RTF 48 cups/case (12 x 4 ct)</p> | <p>Protein (9% kcals) - Milk Protein concentrate</p> <p>Fat (25% kcals) - soy oil</p> <p>CHO (66% kcals) - Sugar, corn maltodextrin, modified cornstarch, FOS</p> |
| <p>ESSENTIAL AMINO ACID MIX (Nutricia Advanced Medical Nutrition) USE: A <u>medical food</u> (Nutritional) for <u>children and adults with urea cycle disorders or conditions in which a nutritionally complete feed is not suitable or a modular approach is required</u>. Contains a balanced mixture of essential amino acids, including cystine and histidine. May be used in enteral formulas to supplement increased protein needs. Unflavored.</p> <p>Per 100 g: 316 kcals, 79 g pro, 0 g fat, 0 g CHO, 0 mg iron</p> <p>Osmolality: 360 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>7 oz (200 g) can powder 2 cans/case</p> <p>Recommended dilution: 5 g powder to 100 ml (~ 3 fl oz) water, fruit juice or other formula.</p> <p>1 Tbsp powder = 9 g</p> <p>Reconstituted amount unavailable. Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (100% kcals) - Amino acids</p> <p>Fat (0% kcals) - None</p> <p>CHO (0% kcals) - None</p> |
| <p>EXPECTA PRENATAL DIETARY SUPPLEMENT (Mead Johnson) (Previously EXPECTRA LIPIL DHA SUPPLEMENT) USE: MVI w/ minerals to meet the needs of pregnant and breastfeeding women.</p> <p>Per 1 tablet: 5 kcals, 0.5 g fat (200 mg DHA), 28 mg iron</p> <p>CAUTION: For use only under strict medical supervision. Note the statements regarding this product have not been evaluated by the Food and Drug Administration and use is not intended to diagnose, treat, cure or prevent any disease</p> | <p>Not WIC approved.</p> | <p>30 DHA softgels and 30 MVI w/ mineral tablets per box</p> | <p>Does not provide a significant source of macronutrients.</p> |

| | | | |
|---|---|---|---|
| <p>FIBERSOURCE HN (Nestle Health Science) USE: A high-fiber, high-protein <u>medical food</u> (Nutritional) for <u>older children and adults</u> with <u>elevated protein needs, abnormal bowel function, and malnutrition</u>. Novartis patented NutriShield ingredients may add microbial protection. Kosher, lactose-free, gluten-free.</p> <p>Per 250 ml: 300 kcals (1.2 kcals/ml), 13.5 g pro, 10 g fat, 41 g CHO, 3.8 g fiber, 4 mg iron</p> <p>Osmolality: 480 mOsm/kg water</p> <p>CAUTION: For use only under strict medical supervision. Not for individuals with galactosemia. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>8.45 fl oz (250 ml) can RTF 24 cans/case</p> <p>1000 ml closed system container 6 containers/case</p> <p>1500 ml closed system container 4 containers/case</p> | <p>Protein (18% kcals) - Soy protein isolate, sodium and calcium caseinate (milk), L-Carnitine</p> <p>Fat (29% kcals) - Canola oil, MCT oil</p> <p>CHO (53% kcals) - Corn syrup, FOS, maltodextrin, inulin, pea fiber</p> |
| <p>GA (Mead Johnson) USE: A lysine- and tryptophan-free <u>infant formula and medical food</u> (Nutritional) for <u>infants, children and adults</u> with <u>glutaric academia type I</u>. Contains increased levels of B vitamins for cofactor production. Iron-fortified. Vanilla scent. Gluten-free, lactose-free, galactose-free.</p> <p>Per 100 g: 500 kcals, 15.1 g pro, 26 g fat, 52 g CHO, 9.6 mg iron</p> <p>Osmolality: 370 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Reconstituted amount unavailable. Follow Rx as directed by physician</p> <p>1 scoop powder = 4.5 g</p> | <p>Protein (12% kcals) - Amino acids (without lysine, tryptophan)</p> <p>Fat (47% kcals) - Vegetable oil (palm oiein oil, coconut oil, soy oil, high oleic sunflower oil).</p> <p>CHO (41% kcals) - Corn syrup solids, sugar, modified corn starch, maltodextrin</p> |

| | | | |
|---|---|--|---|
| <p>GLUCERNA 1.0 (Abbott Nutrition) USE: A reduced-carbohydrate, fiber and fat containing nutritional Nutritionally complete -(diabetic oral supplement/tube feed) for <u>older children and adults with type 1 and type 2 diabetes, hyperglycemia/impaired glucose tolerance (stress-induced hyperglycemia)</u>. Contains fiber. Kosher, gluten-free, lactose-free, low volume.</p> <p>Per 8 fl oz: 237 kcals (1 kcal/ml), 9.9 g pro, 12.9 g fat, 22.8 g CHO, 3.4 g fiber, 3.0 mg iron</p> <p>Flavors: vanilla, unflavored (Ready-To-Hang)</p> <p>CAUTION: For use only under medical supervision. Not for parenteral use. Not for patients with galactosemia.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml) can RTF 24 cans/case</p> <p>1000 ml container Ready-To-Hang 8 containers/case</p> <p>1500 ml container Ready-To-Hang 6 containers/case</p> | <p>Protein (16.7% kcals) - Sodium and calcium caseinates</p> <p>Fat (49% kcals) - High oleic safflower oil, canola oil, soy lecithin</p> <p>CHO (34.3% kcals) - Corn maltodextrin, soy fiber, fructose</p> |
| <p>GLUCERNA 1.2 (Abbott Nutrition) USE: A carbohydrate-controlled, calorically dense, with low glycemic carbohydrates, nutritionally complete <u>medical food</u> (Nutritional- diabetic oral supplement/tube feed) for <u>older children and adults with type 1 and type 2 diabetes, hyperglycemia/impaired glucose tolerance (stress-induced hyperglycemia)</u>. Contains fiber. Kosher, gluten-free, lactose-free, low-residue.</p> <p>Per 8 fl oz: 285 kcals (1.2 kcal/ml), 14.2 g pro, 14.2 g fat, 27.1 g CHO, 3.8 g fiber, 3.5 mg iron</p> <p>Flavors: vanilla, unflavored (Ready-To-Hang)</p> <p>CAUTION: For use only under medical supervision. Not for parenteral use. Not for patients with galactosemia.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml) can RTF 24 cans/case</p> <p>1000 ml container Ready-To-Hang 8 containers/case</p> <p>1500 ml container Ready-To-Hang 6 containers/case</p> | <p>Protein (20% kcals) - Sodium caseinates, soy protein isolate, milk protein concentrate</p> <p>Fat (45% kcals) - High oleic safflower oil, canola oil, soy lecithin</p> <p>CHO (35% kcals) - Corn maltodextrin, isomaltulose, fructose, FOS, glycerin, oat fiber, soy fiber</p> <p>Additive Sucromalt, inositol</p> |

| | | | |
|--|---|--|---|
| <p>GLUCERNA 1.5 (Abbott Nutrition) USE: A carbohydrate-controlled, calorically dense, nutritionally complete <u>medical food</u> (Nutritional- diabetic oral supplement/tube feed) for <u>older children and adults</u> with <u>type 1 and type 2 diabetes, hyperglycemia/impaired glucose tolerance (stress-induced hyperglycemia)</u>. Contains fiber. Kosher, gluten-free, lactose-free, low-volume.</p> <p>Per 8 fl oz: 356 kcals (1.5 kcals/ml), 19.6 g pro, 17.8 g fat, 31.5 g CHO, 3.8 g fiber, 4.3 mg iron</p> <p>Flavors: vanilla, unflavored (Ready-To-Hang)</p> <p>CAUTION: For use only under medical supervision. For enteral use only. Not for parenteral use. Not for patients with galactosemia.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml) can RTF 24 cans/case</p> <p>1000 ml container Ready-To-Hang 8 containers/case</p> | <p>Protein (22% kcals) - Sodium and calcium caseinates, soy protein isolate</p> <p>Fat (45% kcals) - High oleic safflower oil, canola oil, soy lecithin</p> <p>CHO (33% kcals) - Corn maltodextrin, isomaltulose, fructose, FOS, glycerin, oat fiber, soy fiber</p> <p>Additive Sucromalt, inositol</p> |
| <p>GLUCERNA HUNGER SMART SHAKES (Abbott Nutrition) USE: A <u>medical food</u> (Nutritional- diabetic oral supplement) for <u>older children and adults</u> with <u>diabetes or impaired glucose tolerance</u> as part of a weight loss plan. Unique carbohydrate blend may blunt postprandial glycemic response. Kosher, gluten-free, lactose-free.</p> <p>Per 10 fl oz: 180 kcals, 15 g pro, 8 g fat, 14-16 g CHO, 4-6 g fiber</p> <p>Flavors: homemade vanilla, rich chocolate, strawberry</p> <p>CAUTION: For use only under medical supervision. Not for sole-source nutrition. Not for tube feeding or parenteral use. Not for patients with galactosemia.</p> | <p>Not WIC Approved.</p> | <p>11.5 fl oz (340 ml) bottle RTF 4 bottles/case</p> <p>10 fl oz (296ml) bottle RTF 6 bottles/case</p> | <p>Protein (33% kcals) - Milk protein concentrate, soy protein isolate, calcium caseinate</p> <p>Fat (40% kcals) - canola oil, corn oil, soy lecithin</p> <p>CHO (31% kcals) - Fructose, soluble corn fiber, glycerin, FOS</p> <p>Additive Sucralose</p> |

| | | | |
|---|--------------------------|------------------------------------|---|
| <p>GLUCERNA SNACK BAR (Abbott Nutrition) (Previously GLUCERNA HUNGER SMART SNACK BARS) USE: A <u>medical food</u> (Nutritional- diabetic oral supplement) for <u>older children and adults with diabetes or impaired glucose tolerance</u> as part of a weight loss plan. Designed as a partial meal replacement or snack. Unique carbohydrate blend may blunt postprandial glycemic response. Kosher.</p> <p>Per 40 g: 160 kcals, 10 g pro, 6 g fat, 18 g CHO (Nutritional Content varies with flavors)</p> <p>Flavors: chocolate chip, peanut chocolate chip, dark chocolate almond, oats and nuts</p> <p>CAUTION: For use only under medical supervision. Not intended as a sole source of nutrition. Contains milk, soy, wheat and peanuts; manufactured in a facility that processes eggs, other nuts and seeds.</p> | Not WIC Approved. | 1.41 oz (40 g) bar 24 bars/case | <p>Protein (16-19% kcals) -soy protein isolate, tapioca starch, peanut, sunflower seeds, milk protein concentrate, egg whites</p> <p>Fat (24-30% kcals) - Partially hydrogenated soybean oil, cream, butter, fractionated palm kernel oil, peanut butter</p> <p>CHO (51-60% kcals) - syrup, gluten free rolled oats, chocolate chips, marshmallow binder, corn maltodextrin, FOS</p> |
| <p>GLUCERNA MINI SNACK BAR (Abbott Nutrition) USE: A <u>medical food</u> (Nutritional- diabetic oral supplement) for <u>older children and adults with diabetes or abnormal glucose tolerance</u>. Designed as snack. Contains fiber. Kosher.</p> <p>Per 20 g bar: 80 kcals, 3 g pro, 3-3.5 g fat, 10-12 g CHO</p> <p>Flavors: chocolate peanut, oatmeal raisin, chocolate caramel</p> <p>CAUTION: For use only under medical supervision. Not intended as a sole source of nutrition. Contains milk, soy, wheat and peanuts; manufactured in a facility that processes eggs and tree nuts.</p> | Not WIC Approved. | 0.70 oz (20 g) bar 48 bars/case | <p>Protein (17-20% kcals) - Nonfat milk, soy protein isolate, peanut butter</p> <p>Fat (26-28% kcals) - Fractionated kernel oil, Soy lecithin, safflower oil, cream, butter</p> <p>CHO (52-57% kcals) - Fruit juices and grain dextrins, caramel, polydextrose, cocoa, corn maltodextrins, fructose, high fructose corn syrup</p> |

| | | | |
|---|---|---|--|
| <p>GLUCERNA SHAKE (Abbott Nutrition) USE: A nutritionally complete <u>medical food</u> (Nutritional- diabetic oral supplement) for <u>older children and adults</u> with <u>diabetes or impaired glucose tolerance</u>. Contains fiber and FOS (a prebiotic that may help maintain digestive tract health). Unique carbohydrate blend may blunt postprandial glycemic response. Kosher, gluten-free, lactose-free.</p> <p>Per 8 fl oz: 180 kcals, 10 g pro, 9 g fat, 16 g CHO, 4 g fiber</p> <p>Flavors: homemade vanilla, rich chocolate, creamy strawberry, classic butter pecan</p> <p>CAUTION: For use only under medical supervision. Not for tube feeding or parenteral use. Not for patients with galactosemia.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml can) RTF 24 cans/case</p> | <p>Protein (20% kcals) - Milk protein concentrate, soy protein isolate</p> <p>Fat (32% kcals) - canola oil, corn oil, soy lecithin</p> <p>CHO (48% kcals) - Glycerin, fructose, corn maltodextrin, FOS, soluble corn fiber</p> |
| <p>GLUCERNA SNACK SHAKE (Abbott Nutrition) USE: A <u>medical food</u> (Nutritional- diabetic oral supplement) for <u>older children and adults</u> with <u>diabetes or impaired glucose tolerance</u>. Designed as a between-meal snack. Contains fiber. Unique carbohydrate blend may blunt postprandial glycemic response. Kosher, gluten-free, lactose-free.</p> <p>Per 8 fl oz: 140 kcals, 7 g pro, 5 g fat, 19 g CHO, 3 g fiber</p> <p>Flavors: homemade vanilla, rich chocolate</p> <p>CAUTION: For use only under medical supervision. Not intended as a sole source of nutrition. Not for tube feeding, parenteral feeding. Not for patients with galactosemia. Contains milk, soy, gluten, and corn; manufactured in a facility that processes nuts and seeds.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl-oz (237 ml) can 4 x 4 ct /case</p> | <p>Protein (20% kcals) - Milk protein concentrate, sodium Caseinate, soy Protein Isolate</p> <p>Fat (32% kcals) - high oleic safflower oil, canola oil, soy lecithin</p> <p>CHO (48% kcals) - corn maltodextrin, fructose, glycerine, FOS, soy fiber</p> <p>Additive Acesulfame Potassium, sucralose</p> |

| | | | |
|---|---|--|---|
| <p>GLUTARADE AMINO ACID BLEND (Applied Nutrition Corp/ Nutricia) USE: A lysine-free and tryptophan-low <u>medical food</u> (Nutritional) for <u>children over age 1 year</u> and adults with <u>glutaric aciduria type 1</u>.</p> <p>Per 12.3 g (1 scoop): 40 kcals, 10 g pro, 0 g fat, 0 g CHO</p> <p>CAUTION: Must only be given to children with proven glutaric aciduria type 1 under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 4 cans/case</p> <p>Standard dilution = 20 kcals/oz Follow Rx as directed by physician.</p> <p>1 Tbsp powder = 8.5 g powder</p> <p>Servings per container = 37</p> <p>Add one scoop to a single serving of low protein food, not to be used in plain water.</p> | <p>Protein (100% kcals) - Amino acids</p> <p>Fat (0% kcals)</p> <p>CHO (0% kcals)</p> |
| <p>GLUTARADE ESSENTIAL GA-1 DRINK MIX (Applied Nutrition Corp/ Nutricia) USE: A lysine-free and tryptophan-low <u>medical food</u> (Nutritional) for <u>children, teens, and adults</u> with <u>glutaric aciduria type 1</u>. Contains Omega-3 from flaxseed oil and soluble fiber.</p> <p>Per 40 g (1 scoop) (per 154 kcals): 10 g pro, 5 g fat, 18 g CHO</p> <p>Flavor: Vanilla</p> <p>CAUTION: Must only be given to children with proven glutaric aciduria type 1 under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Not WIC Approved.</p> | <p>16 oz (454 g) can powder 4 cans/case Reconstituted 91</p> <p>Recommended dilution 1 scoop powder (40 g) to 7 fl oz (210 ml) water</p> | <p>Protein (10% kcals) - Amino acids</p> <p>Fat (23% kcals) - Canola oil, safflower oil, soybean oil, coconut oil, flaxseed oil.</p> <p>CHO (68% kcals) - Sucrose, maltodextrin, corn starch</p> |
| <p>GLUTARADE JUNIOR GA-1 DRINK MIX (Applied Nutrition Corp/ Nutricia) USE: A lysine-free and tryptophan-low <u>medical food</u> (Nutritional) for <u>young children over age 1 year</u> with <u>glutaric aciduria type 1</u>.</p> <p>Per 100 kcals: 2.5 g pro, 2.5 g fat, 17 g CHO</p> <p>CAUTION: Must only be given to children with proven glutaric aciduria type 1 under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 4 cans/case Reconstituted 82 fl oz (20 kcal/oz)</p> <p>Reconstituted 54.7 fl oz (30 kcal/fl oz) 1 scoop = 9.8 g of powder</p> <p>(20 kcals/oz) 1 scoop (9.8 g) powder to 2 fl oz water (30 kcals/oz) 14.7 g powder to 2 fl oz of water</p> | <p>Protein (10% kcals) - Amino acids</p> <p>Fat (23% kcals) - Canola oil, safflower oil</p> <p>CHO (68% kcals) - Corn syrup solids, modified food starch</p> |

| | | | |
|---|---|--|---|
| <p>GLUTAREX - 1 (Abbott Nutrition) USE: A lysine- and tryptophan free <u>infant formula and medical food</u> (Nutritional) for <u>infants and toddlers</u> with <u>glutaric aciduria type 1</u>. Fortified with L-carnitine and taurine. Iron-fortified. Lactose- free, gluten-free.</p> <p>Per 100 g: 480 kcals, 15 g pro, 21.7 g fat, 53 g CHO, 9 mg iron</p> <p>CAUTION: Must only be given to infants and toddlers with proven glutaric aciduria type 1 under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Reconstituted: 96 fl oz</p> <p>Standard dilution = 20 kcals/oz Follow Rx as directed by physician.</p> <p>1 Tbsp powder = 8 g</p> | <p>Protein (13% kcals) - L-Amino acids (without lysine, tryptophan)</p> <p>Fat (41% kcals) - High oleic safflower oil, coconut oil, soy oil</p> <p>CHO (44% kcals) - Corn syrup solids</p> |
| <p>GLUTAREX - 2 (Abbott Nutrition) USE: A lysine- and tryptophan free <u>medical food</u> (Nutritional) for <u>children and adults</u> with <u>glutaric aciduria type 1</u>. Fortified with L-carnitine and taurine.</p> <p>Per 100 g: 410 kcals, 30 g pro, 13 g fat, 35 g CHO, 13 mg iron</p> <p>CAUTION: Must only be given to children and adults with proven glutaric aciduria Type 1 under strict medical supervision. Not intended as the sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Reconstituted: 82 fl oz (20 kcals/oz)</p> <p>Standard dilution = 30 kcals/oz Follow Rx as directed by physician.</p> <p>1 Tbsp powder = 8 g</p> | <p>Protein (29% kcals) - L-Amino acids (without lysine, tryptophan)</p> <p>Fat (29% kcals) - High oleic safflower oil, coconut oil, soy oil</p> <p>CHO (34% kcals) - Corn syrup solids</p> |
| <p>GLUTASOLVE (Nestle Health Science) USE: Only for individuals <u>greater than 3 years</u>. Medical food (Nutritional) Intended for oral consumption or tube feeding. May be used for individuals <u>suffering from GI injury or GI disease associated with GI sx, chemotherapy, IBD, HIV/AIDS, infectious enteritis, or metabolic stress such as burns, or post- op recover</u>. Mixes into foods such as yogurt, applesauce, or pudding.</p> <p>1 Packet: 90 kcal (0.75 kcal/mL), 0 g fat, 7g CHO, 15g glutamine</p> <p>Osmolality: 310 mOsm/kg (when mixed w/ 120 mL water)</p> <p>CAUTION: For use only under strict medical supervision. Not for individuals with galactosemia. Not for parenteral use.</p> | <p>Not WIC approved.</p> | <p>0.79 oz (22.5 g) packets 56 pkts/case</p> | <p>Protein (68% kcals) -L-glutamine</p> <p>Fat (0% kcals) -None</p> <p>CHO (32% kcals) -Maltodextrin</p> |

| | | | |
|--|---|---|--|
| <p>GLYTROL (Nestle Health Science) USE: A nutritionally complete <u>medical food</u> (Nutritional- diabetic oral supplement) for <u>older children and adults</u> with <u>hyperglycemia, diabetes or dyslipidemia</u>. Contains fiber and prebio (helps support a healthy gut microflora). Kosher, lactose-free, gluten-free, sucrose-free, low-cholesterol.</p> <p>Per 250 ml: 250 kcals (1 kcal/mL), 11.3 g pro, 11.9 g fat, 25 g CHO, 3.8 g fiber, 3.2 mg iron</p> <p>Osmolality: 280 mOsm/kg water</p> <p>Flavors: unflavored, vanilla</p> <p>CAUTION: For use only under strict medical supervision. Not for individuals with galactosemia. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>8.45 fl oz (250 ml) can RTF 24 cans/case</p> <p>UltraPak enteral closed system:</p> <p>1000 ml bag RTF 6 bags/case</p> <p>1500 ml bag RTF 4 bags/case</p> | <p>Protein (18% kcals) - Calcium-potassium caseinate (Milk)</p> <p>Fat (42% kcals) - Canola oil, high oleic safflower oil, MCT (fractionated coconut and palm kernel oil)</p> <p>CHO (40% kcals) - Maltodextrin, modified cornstarch, FOS, inulin, (pea fiber)</p> <p>Additive - Acesulfame Potassium, sucralose</p> |
| <p>GERBER GOOD START Gentle 2 (Nestle) USE: A milk-based <u>infant formula</u> (partially hydrolyzed) for <u>infants 6-12 months</u>. Contains docosahexaenoic acid (DHA) and arachidonic acid (ARA), prebiotic HOM, human milk oligosaccharides to support digestive health and develop immune health. Iron-fortified.</p> <p>Per 100 calories: 1.9g pro, 5.1g fat, 11.9g CHO, 2mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not Idaho WIC approved.</p> | <p>22 oz can powder</p> <p>Standard dilution = 20 kcals/oz : 1 scoop (8.9 g) powder to 2 fl oz water.</p> | <p>Protein (9% kcals) (100% whey proteins) - Hydrolyzed whey protein concentrate</p> <p>Fat (46% kcals) - Vegetable oils (palm olein, soy, coconut, high oleic safflower or sunflower), DHA, ARA</p> <p>CHO (45% kcals) - Lactose, corn maltodextrin</p> |

| | | | |
|---|---|---|---|
| <p>GERBER EXTENSIVE HA (Nestle) USE: complete nutritional <u>infant formula</u> (extensively hydrolyzed) for <u>infants with cow's milk protein allergy</u>. Contains docosahexaenoic acid (DHA) Arachidonic acid (ARA), Probiotic Bifidobacterium lactis BB12.</p> <p>Per 5 fl oz: 100 kcals, 2.6 g pro, 5.1 g fat, 10.9 g CHO, 1.8 mg iron</p> <p>Osmolality: 220 mOsm/kg</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly. Always contact your healthcare professional before making any changes to your baby's diet.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400g) can powder 6 cans/case Reconstituted: 96 fl oz</p> <p>Standard dilution = 20 kcals/oz : 1 scoop (4.6 g) powder to 1 fl oz water.</p> | <p>Protein (10%) (100% whey proteins) - Hydrolyzed whey protein concentrate (from cow's milk)</p> <p>Fat (46%) (49% MCT) - Vegetable oils (soy, high oleic sunflower and high 2-palmitic vegetable oil), DHA, ARA</p> <p>CHO (44%) - Potato starch, corn maltodextrin</p> |
| <p>GERBER GOOD START GENTLE (Nestle Infant Nutrition- Gerber) USE: A milk-based <u>infant formula</u> (partially hydrolyzed) for <u>infants' birth to 12 months</u> with <u>no special nutritional requirements</u>. Contains docosahexaenoic acid (DHA) and arachidonic acid (ARA) probiotics (B.lactis) and prebiotic (HMO). Iron-fortified.</p> <p>Per 5 fl oz: 100 kcals, 2.2 g pro, 5.1 g fat, 11.2 g CHO, 1.5 mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not Idaho WIC approved.</p> | <p>12.7 oz can powder</p> <p>Standard dilution = 20 kcals/oz: 1 scoop (8.7 g) powder to 2 fl oz water.</p> <p>12.1 fl oz carton concentrate</p> <p>3 oz nurser RTF 8 bottles/case</p> <p>8.45 fl oz carton 24 cartons/case</p> | <p>Protein (9% kcals) (100% whey proteins) - Hydrolyzed whey protein concentrate, L Carnitine</p> <p>Fat (46% kcals) - Vegetable oils (palm olein, soy, coconut, high oleic sunflower or safflower), DHA, ARA</p> <p>CHO (45% kcals) - Lactose, corn maltodextrin</p> |

| | | | |
|--|---------------------------------------|---|--|
| <p>GERBER GOOD START SOOTHE (Nestle Nutrition) USE: A milk-based <u>infant formula</u> (partially hydrolyzed) for <u>infants with excessive crying, fussiness, colic and gas</u>. Contains docosahexaenoic acid (DHA) and arachidonic acid (ARA) and prebiotics (HMO) and probiotic (L. reuteri). Iron-fortified.</p> <p>Per 5 fl oz: 100 kcals, 2.2 g pro, 5.1 g fat, 11.2 g CHO, 1.5 mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not Idaho WIC approved.</p> | <p>12.4 oz can powder 23.2 oz can powder</p> | <p>Protein (9% kcals) (100% whey proteins) - Hydrolyzed whey protein concentrate, L Carnitine</p> <p>Fat (46% kcals) - Vegetable oils (palm olein, soy, coconut, high oleic sunflower or safflower), DHA, ARA</p> <p>CHO (45% kcals) - Corn maltodextrin</p> |
| <p>GERBER GOOD START SOY (Nestle Nutrition) USE: A soy-based <u>infant formula</u> (lactose-free, partially hydrolyzed) for <u>infants 0-12 months old</u> with <u>sensitivity to cow's milk or hereditary or temporary lactase deficiency</u>. Contains partially hydrolyzed soy protein, docosahexaenoic acid (DHA) and arachidonic acid (ARA). Iron-fortified. Milk-free. Kosher.</p> <p>Per 5 fl oz: 100 kcals, 2.5 g pro, 5.1 g fat, 11.1 g CHO, 1.8 mg iron</p> <p>Per 100 calories, Osmolality, mOsm/kg water: 180</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not Idaho WIC approved</p> | <p>12.9 oz can powder 6 cans/case Reconstituted: 91 fl oz</p> <p>Standard dilution = 20 kcals/oz 1 scoop (8.9 g) powder to 2 fl oz water.</p> <p>12.1 fl oz can concentrate</p> <p>8.45 fl oz (250 ml) can RTF</p> | <p>Protein (10 % kcals) (100% whey proteins) - Partially Hydrolyzed Soy Protein Isolate</p> <p>Fat (46% kcals) - Vegetable oils (palm olein, soy, coconut, high oleic sunflower or safflower), DHA, ARA</p> <p>CHO (44% kcals) - Corn maltodextrin, sucrose</p> |

| | | | |
|---|---|---|---|
| <p>GERBER Good Start Soy Stage 3 (Nestle) (Previously GERBER GRADUATES SOY) USE: A soy-based formula for older infants and toddlers (lactose-free, partially hydrolyzed) with <u>sensitivity to cow's milk or hereditary or temporary lactase deficiency</u>. Contains partially hydrolyzed soy protein, docosahexaenoic acid (DHA) and arachidonic acid (ARA). Iron-fortified. Milk-free.</p> <p>Per 5 fl oz: 100 kcals, 2.4 g pro, 5.0 g fat, 10.9 g CHO, 2 mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not WIC approved.</p> | <p>24 oz can powder</p> <p>Standard dilution = 20 kcals/oz 1 scoop (8.9 g) powder to 2 fl oz water.</p> | <p>Protein (11 % kcals) (100% whey proteins) - Hydrolyzed Soy Protein Isolate</p> <p>Fat (45% kcals) - Vegetable oils (palm olein, soy, coconut, high oleic sunflower or safflower), DHA, ARA</p> <p>CHO (44% kcals) - Corn maltodextrin, sucrose</p> |
| <p>HCU Lophlex LQ (Nutricia Advanced Medical Nutrition) USE: A methionine-free <u>medical food</u> (Nutritional) for the dietary management of proven <u>homocystinuria in children (4 years+) and adults, including pregnant women</u>. Contains a balanced mixture of other essential and non-essential amino acids, carbohydrates, vitamins, minerals and DHA. No artificial flavors.</p> <p>Per pouch (4.2 fl oz): 120 kcals, 20 g pro, 0.44 g fat, 9.3 g CHO, 5.1 mg iron</p> <p>Osmolality: 2460 mOsm/kg</p> <p>Flavors: Mixed berry blast</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use. Not intended for infants.</p> | <p>Approved with Medical Documentation form.</p> | <p>4.2 fl oz (125 ml) pouch 30 pouches/case</p> <p>Intake dependent on the age, bodyweight and medical condition of the individual. Follow Rx as directed by physician</p> | <p>Protein (67% kcals) - Amino acids (without methionine)</p> <p>Fat (< 1% kcals) - DHA (C. Cohnii oil)</p> <p>CHO (31% kcals) - fruit juice from concentrate (apple, grape, blackcurrant, elderberry) Corn syrup solids, maltodextrin, sugar,</p> <p>Additive sucralose, acesulfame potassium</p> |

| | | | |
|---|---|--|---|
| <p>HCY 1 (Mead Johnson) USE: A methionine-free <u>infant formula and medical food</u> (Nutritional) for <u>infants and toddlers with homocystinuria</u>. Contains added cystine and increased levels of B vitamins for cofactor production. Iron-fortified. Vanilla scent. Halal. DHA & ARA.</p> <p>Per 100 g: 500 kcals, 16.2 g pro, 26 g fat, 51 g CHO, 9.6 mg iron</p> <p>Osmolality: 350 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Reconstituted amount unavailable. Follow Rx as directed by physician</p> <p>1 scoop powder = 4.5 g</p> | <p>Protein (13% kcals) - Amino acids (without methionine)</p> <p>Fat (47% kcals) - Vegetable oil (palm olein, soy, coconut, high oleic sunflower oils)</p> <p>CHO (40% kcals) - Corn syrup solids, modified corn starch, sugar</p> |
| <p>HCY 2 (Mead Johnson) USE: A methionine-free <u>medical food</u> (Nutritional) for <u>children and adults with homocystinuria</u>. Provides essential and non-essential amino acids, CHO, fat, essential fatty acids, vitamins and minerals. Contains added cystine. Iron-fortified. Vanilla scent. Lactose- free. Halal.</p> <p>Per 100 g: 410 kcals, 22 g pro, 8.5 g fat, 61g CHO, 13.8 mg iron</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Reconstituted amount unavailable. Follow Rx as directed by physician</p> <p>1 scoop powder = 14.5 g</p> | <p>Protein (22% kcals) - Amino acids (without methionine)</p> <p>Fat (19% kcals) - Soy oil</p> <p>CHO (59% kcals) - corn syrup solids, sugar, modified corn starch</p> |
| <p>HI-CAL (Abbott Nutrition) USE: A high-calorie <u>medical food</u> (Nutritional) for <u>older children and adults in need of extra calories</u>. Fortified with vitamins and minerals. Kosher, gluten-free, lactose-free, low-residue.</p> <p>Per 8 fl oz: 475 kcals (2 kcals/ml), 19.8 g pro, 21.2 g fat, 51.3 g CHO, 3.6 mg iron</p> <p>CAUTION: For use only under medical supervision. Not intended as a sole source of nutrition. Not for tube-feeding or parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>1000 ml bottle 8 bottles/case</p> | <p>Protein (16.7% kcals) - Sodium and calcium caseinates</p> <p>Fat (40.1% kcals) - Corn oil, soy lecithin</p> <p>CHO (43.2% kcals) - Corn syrup solids, corn maltodextrin, sugar</p> |

| <p>JUVEN (Abbott Nutrition) USE: A <u>medical food</u> (Nutritional) for <u>older children and adults</u> (wound healing oral supplement/tube feed) with <u>burn injuries, pressure ulcers, venous stasis ulcers or other chronic wounds</u>. Contains supplemental levels of L-Arginine and Glutamine. Kosher, lactose-free, sugar-free, may be suitable for gluten-free diets.</p> <p>Per 27.5 g: 90 kcals, 14 g pro, 0 g fat, 78.4 g CHO, 0 mg iron (0.15 kcals/ml when mixed with 237 ml water.</p> <p>Osmolality: 405 – 461 mOsm/kg</p> <p>Flavors: unflavored, fruit punch, orange</p> <p>CAUTION: For use only under medical supervision. Made in same plant with soy, milk, egg and wheat products. Phenylketonurics: contains phenylalanine in fruit punch and orange flavors.</p> | <p>Not WIC Approved.</p> | <p>24 g (0.85 oz) packet powder 56 packets/case</p> <p>Mix one packet with 6-8 fl oz water.</p> | <p>Protein (85% kcals) - L-Arginine, glutamine</p> <p>Fat (0% kcals) - None</p> <p>CHO (15% kcals) - sugar</p> <p>Additive Phenylalanine</p> |
| <p>KETOCAL 3:1 Powder (Nutricia Advanced Medical Nutrition) USE: A nutritionally complete, ketogenic <u>medical food</u> (Nutritional) in a 3:1 ratio (fat: carbohydrate + protein) for <u>individuals over 1 year of age with refractory or intractable epilepsy and other epilepsy-related conditions</u>. Can be used as the sole source of nutrition or as a supplement. Nutrient dense for children with low energy requirements. For oral use or tube-feeding. DHA &ARA.</p> <p>Per 100 g: 699 kcals (1 kcal/mL), 15.3 g pro, 7.2 g CHO, 67.7 g fat, 10.9 mg iron.</p> <p>Osmolality: 150 mOsm/kg at 30 kcal/fl oz</p> <p>CAUTION: For use only under strict medical supervision. Not for parenteral use. Not suitable for children under one year of age.</p> | <p>Approved with Medical Documentation form.</p> | <p>11 oz (300 g) can powder 6 cans/case</p> <p>Reconstituted 105 fl oz (20 kcal/oz)</p> <p>Dilutions: 20 kcal/oz: 9.5 g powder to 90 ml water to yield 100 ml 24 kcal/oz: 11.4 g powder to 89 ml water to yield 100 ml 30 kcal/oz: 14.3 g powder to 86 ml water to yield 100 ml</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (8.8% kcals) - Milk protein (whey, casein, Lactose (Milk), Sodium caseinate</p> <p>Fat (87.1% kcals) Refined vegetable oil (palm, soy, sunflower), M Alphina oil, C Cohnii oil, ARA and DHA</p> <p>CHO (4.1% kcals) - Lactose, corn syrup solid</p> |

| | | | |
|---|---|---|---|
| <p>KETOCAL 4:1 (Nutricia Advanced Medical Nutrition) USE: A nutritionally complete, ketogenic <u>medical food</u> (Nutritional) in a 4:1 ratio (fat: carbohydrate+ protein) for <u>individuals over 1 yr of age with refractory or intractable epilepsy and other epilepsy-related conditions</u>. Can be used as the sole source of nutrition or as a supplement (based on age). Nutrient dense for children with low energy requirements. For oral use or tube-feeding. DHA/ARA. Soluble and insoluble fiber blend.</p> <p>Per 100 g: 705 kcals, 14.4 g pro, 8.2 g CHO, 69.2 g fat, 7 mg iron, fiber 5.3 g (3.2 g soluble, 2.1 g insoluble).</p> <p>Flavor: Vanilla</p> <p>Osmolality (at 1 kcal/mL): 170 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not for parenteral use. Not suitable for children under one year of age.</p> | <p>Approved with Medical Documentation form.</p> | <p>11 oz (300 g) can powder 6 cans/case</p> <p>Reconstituted 105 fl oz (20 kcal/oz)</p> <p>Dilutions: 20 kcal/oz: 9.5 g powder to 91 ml water to yield 100 ml</p> <p>24 kcal/oz: 11.4 g powder to 88 ml water to yield 100 ml</p> <p>30 kcal/oz: 14.2 g powder to 86 ml water to yield 100 ml</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (8.2% kcals) - Casein, Whey, sodium caseinate</p> <p>Fat (88.3% kcals) (LCT 100%) - Refined vegetable oil (palm, soy, sunflower), soy lecithin, M Alphina oil, C Cohnii oil, ARA and DHA</p> <p>CHO (3.5% kcals) - Corn syrup solids, high amylose corn starch, maltodextrin, soy fiber, FoS, inulin</p> <p>Contains sucralose.</p> |
| <p>KETOCAL 4:1 LIQUID (Nutricia Advanced Medical Nutrition) USE: A nutritionally complete, ketogenic <u>medical food</u> (Nutritional) in a 4:1 ratio (fat: carbohydrate + protein) for <u>individuals over 1 yr of age refractory or intractable epilepsy and other epilepsy-related conditions</u>. Can be used as the sole source of nutrition or as a supplement (based on age). Nutrient dense for children with low energy requirements. For oral use or tube-feeding. DHA/ARA. Soluble and insoluble fiber blend.</p> <p>Per 100mL: 150 kcals, 3.09 g pro, 1.73 g CHO, 14.8 g fat, 1.5 mg iron, fiber 1.12 g (0.56 g soluble, 0.56 g insoluble).</p> <p>Flavors: Vanilla or unflavored</p> <p>Osmolality (1.5 kcal/mL): 260 mOsm/kg (vanilla) and 280 mOsm/kg (unflavored)</p> <p>CAUTION: For use only under strict medical supervision for individuals with intractable epilepsy. Not for parenteral use. Not suitable for children under one year of age.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (235 ml) RTF 27 cans/case</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (8.2% kcals) - sodium caseinate, whey protein concentrate</p> <p>Fat (88.7% kcals) (LCT 100%) - Refined vegetable oil (high oleic sunflower, soy, palm) soy lecithin, M Alphina oil, C Cohnii oil, ARA and DHA</p> <p>CHO (3.1% kcals) - soy fiber, corn starch, inulin, FOS, sugar,</p> <p>(Vanilla only) contains sucralose, Na hydroxide, Cloline chloride</p> |

| | | | |
|--|---|--|--|
| <p>KETONEX – 1 (Abbott Nutrition) USE: An isoleucine-, leucine- and valine-free <u>infant formula and medical food</u> (Nutritional) for <u>infants and toddlers</u> with <u>maple syrup urine disease (MSUD)</u>. Supplemented with L-carnitine and taurine. Iron-fortified. Lactose-free, gluten-free.</p> <p>Per 100 g: 480 kcals, 15 g pro, 21.7 g fat, 53 g CHO, 9 mg iron</p> <p>CAUTION: Must only be given to infants and toddlers with proven MSUD under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Reconstituted: 96 fl oz (20kcal/oz)</p> <p>Standard dilution = 20 kcals/oz Follow Rx as directed by physician.</p> <p>1 Tbsp powder = 8 g</p> | <p>Protein (13% kcals) - L-Amino acids (without isoleucine, leucine, valine)</p> <p>Fat (41% kcals) - High oleic safflower oil, coconut oil, soy oil</p> <p>CHO (44% kcals) - Corn syrup solids</p> |
| <p>KETONEX – 2 (Abbott Nutrition) USE: An isoleucine-, leucine- and valine-free <u>medical food</u> (Nutritional) for <u>children and adults</u> with <u>maple syrup urine disease (MSUD)</u>. Supplemented with L-carnitine and taurine.</p> <p>Per 100 g: 410 kcals, 30 g pro, 14 g fat, 35 g CHO, 13 mg iron</p> <p>CAUTION: Must only be given to children and adults with proven MSUD under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Reconstituted: 82 fl oz (20 kcals/oz)</p> <p>Standard dilution = 30 kcals/oz Follow Rx as directed by physician.</p> <p>1 Tbsp powder = 8 g</p> | <p>Protein (29% kcals) - L-Amino acids (without isoleucine, leucine, valine)</p> <p>Fat (31% kcals) - High oleic safflower oil, coconut oil, soy oil</p> <p>CHO (34% kcals) - Corn syrup solids</p> |
| <p>KETOVOLVE (Metagenes / Nutr-E-Volution Cc.) USE: A nutritionally complete, ketogenic <u>medical food</u> (Nutritional) in a 4:1 ratio (fat: carbohydrate+ protein) for <u>ages 1-8 years old</u> with <u>intractable epilepsy</u> and certain metabolism disorders requiring carbohydrate restriction. Can be used as the sole source of nutrition in individuals over the age of one years of age. For oral use or tubefeeding. slight vanilla odor</p> <p>Per 100 g: 700 kcals, 14.5 g pro, 72 g fat, 2.5 g CHO, 10 mg iron</p> <p>CAUTION: For use only under strict medical supervision for individuals with intractable epilepsy. Not for parenteral use. Not suitable for children under one year of age.</p> | <p>Approved with Medical Documentation form.</p> | <p>10.6 oz (300 g) can powder 4 units/case</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein - LCT, MCT, Whey protein concentrate (80%)</p> <p>Fat - fractionated coconut oil, palm fruit oil</p> <p>CHO - Maltodextrin (Added vanilla flavoring (0.2%))</p> |

| | | | |
|--|---|---|---|
| <p>L-EMENTAL Arginine Drink Mix (Hormel HealthLabs) USE: An elemental <u>medical food</u> (Nutritional) (wound healing oral supplement/tube feed) for <u>older children and adults</u> with <u>inflammatory bowel disease, bowel resection, chronic diarrhea, crohn's disease, irradiated bowel, malabsorption syndrome, GI fistula, short bowel syndrome, pancreatic disorder, limited gut function or if transitioning from TPN</u>. Assists in wound healing by delivering arginine, antioxidants and zinc. Kosher, lactose-free, gluten-free.</p> <p>Per 0.36 oz: 30 kcals, 0 g pro, 1 g fat, 1 g CHO, 0 mg iron, 4.5 g L-Arginine</p> <p>Flavors: orange, cherry</p> <p>CAUTION: For use only under strict medical supervision. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>0.37 oz (10.3 g) packet powder 50 packets/case</p> <p>Standard dilution: Mix with water or juice</p> | <p>Protein (47% kcals) - L-arginine</p> <p>Fat (0% kcals) - None</p> <p>CHO (53% kcals) - Maltodextrin</p> |
| <p>L-EMENTAL (Hormel HealthLabs) – unflavored USE: An elemental <u>medical food</u> (Nutritional - wound healing oral supplement/tube feed) for <u>older children and adults</u> with <u>inflammatory bowel disease, bowel resection, chronic diarrhea, crohn's disease, irradiated bowel, malabsorption syndrome, GI fistula, short bowel syndrome, pancreatic disorder, limited gut function or if transitioning from TPN</u>. Assists in wound healing by delivering arginine, antioxidants and zinc. Kosher, lactose-free, gluten-free.</p> <p>Per 2.87 oz: 300 kcals, 11.5 g pro, 0.8 g fat, 61.7 g CHO, 2.7 mg iron</p> <p>Osmolality: 630 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>2.84 oz (80.4 g) packet powder 60 packets/case</p> <p>Standard dilution: 1 packet powder to 8.5 fl oz warm water.</p> | <p>Protein (15% kcals) - Amino acids</p> <p>Fat (2% kcals) - Safflower oil</p> <p>CHO (82% kcals) - Maltodextrin</p> |
| <p>LANAFLEX (Nutricia Advanced Medical Nutrition) USE: A phenylalanine-free <u>medical food</u> (Nutritional) for <u>individuals over 12 years of age</u> with <u>phenylketonuria</u> who are no longer following a phenylalanine-restricted diet. Contains CHO, vitamins, minerals, and trace elements.</p> <p>Per 15.8 g: 40 kcals, 5.2 g pro, 0.16 g fat, 4.4 g CHO, 5.9 mg Iron</p> <p>Osmolality (1 to 4 dilution): 1350 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not for use when planning or during pregnancy. Contains soy</p> | <p>Not WIC approved.</p> | <p>15.8 g sachet 40 sachets/case</p> <p>Standard dilution: 1 sachet to 2 fl oz chilled water = 70 ml (2.3 fl oz).</p> <p>Recommended quantity of Lanaflex is 0.8 g per kg bodyweight per day. Not to exceed three sachets per day total.</p> | <p>Protein (52% kcals) - Amino Acids</p> <p>Fat (0% kcals) - Soy Lecithin</p> <p>CHO (44% kcals) - Sugar</p> <p>Additive Acesulfame Potassium</p> |

| | | | |
|--|---|---|---|
| <p>LIQUID PROTEIN FORTIFIER (Abbott Nutrition) USE: A extensively hydrolyzed protein medical food (Nutritional) for infants with an increased protein need. Sterile. For use with human milk or infant formula. Peptides and amino acids for easy digestion and absorption.</p> <p>Per 6 ml: 4 kcals, 1 g pro</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Not WIC Approved.</p> | <p>1.8 fl oz (54 ml) bottle 48 bottles/case</p> | <p>Protein (100% kcals) - Casein hydrolysate</p> <p>Fat (0% kcals)</p> <p>CHO (0% cakl)</p> |
| <p>LMD (Mead Johnson) USE: A leucine-free <u>infant formula and medical food with iron</u> (Nutritional) for <u>infants, children and adults</u> with <u>inborn errors of leucine metabolism, including isovaleric acidemia</u>. Contains increased levels of B vitamins for cofactor production. Vanilla scent. Halal, lactose free. DHA & ARA</p> <p>Per 100 g: 500 kcals, 16.2 g pro, 26 g fat, 51 g CHO, 9.6 mg iron</p> <p>Osmolality: 370 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Reconstituted amount unavailable. Follow Rx as directed by physician</p> <p>1 scoop powder = 4.5 g</p> | <p>Protein (13% kcals) - Amino acids (without leucine)</p> <p>Fat (47% kcals) - Vegetable oil (palm olein, coconut, soy, high oleic sunflower oils), DHA, ARA</p> <p>CHO (40% kcals) - Corn syrup solids, modified corn starch, sugar</p> |
| <p>PKU LOPHLEX Powder (Nutricia Advanced Medical Nutrition) USE: A phenylalanine-free <u>medical food</u> (Nutritional) for <u>older children and adults (including pregnant women)</u> with <u>phenylketonuria (PKU)</u>. Low volume medical food. Contains vitamins, minerals and trace elements. For oral use or tubefeeding.</p> <p>Per 14.3 g: 41 kcals, 10 g pro, 0.03 g fat, 0.14 g CHO, 3.7 mg iron</p> <p>Osmolality (1 to 5 dilution): 2460 mOsm/kg</p> <p>Flavors: berry, orange, and unflavored</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use. Not intended for infants.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.3 g sachet powder 30 sachets/box</p> <p>Standard dilution: 1 sachet powder to water to yield 2.5 fl oz drink.</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (98% kcals) - Amino acids (without phenylalanine)</p> <p>Fat (<1% kcals) - soy lecithin</p> <p>CHO (1% kcals) - Negligible</p> <p>Additive Acesulfame Potassium</p> |

| | | | |
|---|---|--|--|
| <p>MCT OIL (Nestle Health Science) USE: A <u>medical food</u> (Nutritional) for <u>infants, children and adults with pancreatic disorders, malabsorption syndrome or short bowel syndrome.</u> More readily hydrolyzed and absorbed than conventional food fat. Suitable for kosher, lactose-free, and gluten-free diets.</p> <p>Per 1 Tbsp: 115 kcals (7.7 kcals/ml; 8.3 kcals/g), 0 g pro, 14 g fat, 0 g CHO, 0 mg iron</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition.</p> | <p>Approved with Medical Documentation form.</p> | <p>1-quart glass bottle 6 bottles/case</p> | <p>Protein (0% kcals) - None</p> <p>Fat (100% kcals) - MCT oil (coconut oil and/or palm kernel oil)</p> <p>CHO (0% kcals) - None</p> |
| <p>MICROLIPID (Nestle Health Science) USE: A <u>medical food</u> (Nutritional - for use in foods/oral supplements/tube feeds) for <u>infants, children and adults with anorexia, fluid restriction or in need of extra calories, decreased CHO tolerance, and ketogenic diet.</u> 50% fat emulsion. Kosher, lactose-free, gluten-free diet.</p> <p>Per 1 Tbsp: 67.5 kcals (4.5 kcals/ml), 0 g pro, 7.5 g fat, 0 g CHO, 0 mg iron</p> <p>Osmolality: 62 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Contains Soy.</p> | <p>Approved with Medical Documentation form.</p> | <p>3 fl oz bottle 48 bottles/case</p> | <p>Protein (0% kcals) - None</p> <p>Fat (100% kcals) - Safflower oil, polyglycerolk esters of fatty acids</p> <p>CHO (0% kcals) - None</p> |
| <p>MONOGEN (Nutricia Advanced Medical Nutrition) USE: a milk-protein based <u>medical food</u> (Nutritional) <u>for individuals over 1 year of age with hyperlipoproteinemia type 1, chylothorax, long chain fatty acid oxidation disorder, and other lipid and lymphatic disorders where a low fat, high MCT diet is indicated.</u> High in medium chain triglycerides and contains DHA and ARA. For oral use or tube-feeding.</p> <p>Per 100 g: 444 kcals, 12.9 g pro, 12.9 g fat, 69.1 g CHO, 6 mg iron</p> <p>Osmolality: 235-289 mOsm/kg with dilution rates of 0.73 kcal/mL and 1 kcal/ mL</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition.</p> | <p>Approved with Medical Documentation form.</p> | <p>14 oz (400 g) can powder 6 cans/case</p> <p>Standard dilution: 22 kcals/oz 3scoops (16.8 g powder) to 3 fl oz (90 ml) water yields 100 mL formula.</p> <p>1 scoop powder = 5.6 g</p> <p>Reconstituted 79 fl oz.</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (12% kcals) (Casein 61%, Whey 39%) - Skin Milk, Whey (milk) Casein (milk), L-amino acids</p> <p>Fat (26% kcals) (84% MCT) - Refined vegetable oil, palm kernel, or coconut (MCT), walnut oil, M Alpina oil, C Cohnii oi, DHA, ARA</p> <p>CHO (62% kcals) - maltodextrin, corn syrup solids</p> |

| | | | |
|--|---|--|--|
| <p>MSUD ANAMIX Early Years (Nutricia Advanced Medical Nutrition) (Previously MSUD ANAMIX INFANT)</p> <p>USE: An isoleucine-, leucine and valine-free <u>infant formula with iron</u> for <u>infants</u> 0-12 months with <u>maple syrup urine disease (MSUD)</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, vitamins, minerals and trace elements. Contains DHA, ARA. Prebiotics. Unflavored. Contains milk, soy, coconut.</p> <p>Per 100 g: 473 kcals, 13.5 g pro, 23 g fat, 53 g CHO, 7.3 mg iron</p> <p>Osmolality (at 21 kcal/fl oz): 380 mOsm/kg</p> <p>CAUTION: Must only be given to children with proven maple syrup urine disease under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use. <u>Must be consumed in conjunction with a whole protein source (e.g. breast milk or standard infant formula) in quantities prescribed by a dietitian or physician to meet the general nutrition requirements to ensure normal growth and development.</u></p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case Reconstituted amount 90 fl oz</p> <p>Recommended dilution = 21kcal/oz: 1 scoop (5 g) powder to every 1 fl oz water</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (11.5% kcals) - Amino acids (without isoleucine, leucine and valine)</p> <p>Fat (43.7% kcals) - Refined vegetable oil(High oleic sunflower,soy, non-hydrogenated coconut, canola, sunflower), M Alpina oil, C Cohnii oil, DHA, ARA</p> <p>CHO (44.8% kcals) - Corn syrup solids, GOS, Dried Syrup, FOS</p> |
| <p>MSUD LOPHLEX LQ (Nutricia Advanced Medical Nutrition)</p> <p>USE: An isoleucine-, leucine and valine-free <u>medical food</u> (Nutritional) for <u>children (4+)</u> and <u>adults with maple syrup urine disease (MSUD)</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, vitamins, minerals and DHA based on mixed fruit juices. No artificial flavors.</p> <p>Per pouch (4.2 fl oz): 120 kcals, 20 g pro, 0.44 g fat, 9.3 g CHO, 5.1 mg iron</p> <p>Osmolality: 2460 mOsm/kg</p> <p>Flavors: Berry Blast</p> <p>CAUTION: Must only be given to children with proven maple syrup urine disease under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>4.2 fl oz (125 ml) pouch 30 pouches/case</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (66.7% kcals) - Amino acids (without isoleucine, leucine and valine)</p> <p>Fat (0.03% kcals) - DHA (C. Cohnii oil)</p> <p>CHO (31% kcals) - fruit, juice from concentrate (apple, grape, blackcurrant, elderberry, radish) Corn syrup solids, maltodextrin, sugar,</p> <p>Additive - Sucralose, acesulfame potassium</p> |

| | | | |
|---|---|---|---|
| <p>MSUD MAXAMUM (Nutricia Advanced Medical Nutrition) USE: An isoleucine-, leucine- and valine-free <u>medical food</u> (Nutritional) for older children and adults and pregnant women with <u>maple syrup urine disease (MSUD)</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, vitamins, minerals and trace elements. Does not contain fat, allowing for flexibility in modifying energy intake.</p> <p>Per 100 g: 305 kcals, 40 g pro, <1 g fat, 34 g CHO, 23.5 mg iron</p> <p>Osmolality: Dilution 1 to 7 - 750 mOsm/kg Dilution 1 to 5 - 1090 mOsm/kg</p> <p>Flavors: orange</p> <p>CAUTION: Must only be given to individuals with proven maple syrup urine disease under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use. Contains soy.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Recommended dilution (1 to 7) is ¼ cup (35 g) powder to 8 fl oz water.</p> <p>1 Tbsp powder = 9 g</p> <p>Reconstituted 115 fl oz.</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (52% kcals) - Amino acids (without isoleucine, leucine valine)</p> <p>Fat (<3% kcals) - Soy lecithin</p> <p>CHO (45% kcals) - Sugar, corn syrup solids</p> |
| <p>NEOCATE INFANT DHA /ARA (Nutricia Advanced Medical Nutrition) USE: A nutritionally complete elemental amino acid-based <u>infant formula</u> with iron and nucleotides. for <u>infants with cow milk allergies, multiple food allergies, and related conditions</u>. Good to know, dairy free, dairy protein-free facility, soy oil free, no artificial colors or flavors. Contains DHA, ARA, and nucleotides. 100% synthetic free amino acids. For oral use or tube-feeding. Lactose-free, milk-free, sucrose-free, Kosher, Halal (Can't claim to have no soy protein.)</p> <p>Per 100 kcals: 2.8 g pro, 5.1 g fat, 10.8 g CHO, 1.5 mg iron</p> <p>Osmolality: 340 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 4 cans/case Reconstituted: 97 fl oz</p> <p>Standard dilution = 20 kcals/oz: 8 scoops (37 g) to 8 fl oz water yields 9 fl oz formula</p> | <p>Protein (11.2% kcals) - Free amino acids</p> <p>Fat (45.7% kcals) (8 % MCT, 6% high oleic Sunflower oil, 5% Sunflower oil, 4% Canola Oil) and Refined vegetable oils.</p> <p>CHO (43.1% kcals) - Corn syrup solids</p> |

| | | | |
|--|---|---|--|
| <p>NEOCATE JUNIOR (Nutricia Advanced Medical Nutrition) USE: A nutritionally complete <u>medical food</u> (Nutritional, hypoallergenic elemental, tube feed/oral supplement) for <u>children ages 1-10</u> formulated to manage children with <u>cow milk allergy, multiple food allergies (MFA) and related GI and allergic conditions including eosinophilic esophagitis (EoE), food protein-induced enterocolitis syndrome (FPIES), short bowel syndrome (SBS), malabsorption, and gastroesophageal reflux (GER).</u> Contains extra vitamins and minerals for malabsorptive conditions. 100% synthetic free amino acids. Good to Know: dairy free, made in a dairy protein free facility, soy oil free, no artificial colors, flavors, sweetener kosher, Pareve. SHS flavor packets available. (Can't claim to have no soy protein.)</p> <p>Per 100 kcals: 3.1 g pro, 5 g fat, 10.7 g CHO, 1.5 mg iron</p> <p>Osmolality: 600 mOsm/kg</p> <p>Flavors: unflavored</p> <p>CAUTION: For use only under strict medical supervision.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 4 cans/case</p> <p>Reconstituted 64 fl oz</p> <p>Standard dilution = 30 kcals/oz:</p> <p>Unflavored: simplified 1:1 mixing</p> <p>1 Scoop = 7.3 g</p> | <p>Protein (12.4% kcals) - Free amino acids</p> <p>Fat (45% kcals) refined Vegetable Oil (MCT: Palm Kernel and or Coconut Oil (8%), High Oleic Sunflower Oil (6%), Sunflower Oil (4%) Canola Oil (4%)),</p> <p>CHO (42.6% kcals) - Corn syrup solids, maltodextrin</p> |
| <p>NEOCATE JUNIOR WITH PREBIOTICS (Nutricia Advanced Medical Nutrition) USE: A nutritionally complete <u>medical food</u> (Nutritional) with prebiotic fiber (pediatric elemental, hypoallergenic tube feed/oral supplement) for <u>children ages 1-10</u> with <u>cow milk allergy, multiple food allergies (MFA) and related GI and allergic conditions including eosinophilic esophagitis (EoE), food protein-induced enterocolitis syndrome (FPIES), short bowel syndrome (SBS), malabsorption, and gastroesophageal reflux (GER).</u> Contains extra vitamins and minerals for malabsorptive conditions. 100% synthetic free amino acids. Good to Know: dairy free, made in a dairy protein free facility, soy oil free, no artificial colors, flavors, sweetener, kosher, Pareve. SHS flavor packets available. (Can't claim to have no soy protein)</p> <p>Per 100 kcals: 3.1 g pro, 4.7-4.9 g fat, 10.9-11.4 g CHO, 1.6 mg iron</p> <p>Osmolality: 550-650 mOsm/kg</p> <p>Flavors: unflavored, vanilla, strawberry, chocolate, tropical</p> <p>CAUTION: For use only under strict medical supervision.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 4 cans/case</p> <p>Reconstituted 61 fl oz</p> <p>Standard dilution = 30 kcals/oz:</p> <p>1 scoop= 7.3-7.7g Mixing: 1 scoop:1 fl oz water</p> | <p>Protein (12.3-12.6% kcals) - Free amino acids</p> <p>Fat (41.9-43.9% kcals) - Refined vegetable oil (MCT (palm kernel and or coconut oil, High Oleic Sunflower Oil, Sunflower Oil, Canola Oil))</p> <p>CHO (43.6-45.5% kcals) - Corn syrup solids, maltodextrin, fructooligosaccharides</p> <p>Additive - Sucralose (vanillia, chocolate, and strawberry) Acesulfame Potassium (tropical)</p> |

|--|---|---|---|
| <p>NEOCATE SPLASH UNFLAVORED (Nutricia Advanced Medical Nutrition) USE: A nutritionally complete <u>medical food</u> (Nutritional - pediatric elemental, hypoallergenic oral supplement/tube feed) for <u>children over the age of 1</u> for the dietary management of <u>cow milk allergy, multiple food allergies (MFA) and related GI and allergic conditions including eosinophilic esophagitis (EoE), food protein-induced enterocolitis syndrome (FPIES), short bowel syndrome (SBS), malabsorption, and gastroesophageal reflux (GER).</u> 100% synthetic free amino acids. Good to Know: dairy free, soy oil free, no artificial colors, Gluten and casein-free. (Can't claim to have no soy protein)</p> <p>Per 8 oz: 237 kcals, 7.1 g pro, 12.1 g fat, 24.9g CHO, 3.6 mg iron</p> <p>Osmolality: 670 mOsm/kg</p> <p>CAUTION: For use only under medical supervision.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml) drink box RTF 27 drink boxes/case</p> <p>Standard dilution = 30 kcals/oz</p> | <p>Protein (12% kcals) - Free amino acids</p> <p>Fat (46% kcals) - Refined vegetable oils: high oleic sunflower oil, MCT (Modified palm kernel and/or coconut oil), canola oil.</p> <p>CHO (42% kcals) - Maltodextrin, sugar.</p> |
| <p>NEOCATE SYNEO INFANT (Nutricia Advanced Medical Nutrition) USE: Hypoallergenic amino-acid based infant formula for the dietary management of infants with cow milk allergy, multiple food allergies, and related GI conditions. Contains Syndeo, a patented synbiotic (prebiotic and probiotic). Good to Know: added nucleotides, DHA & ARA, dairy free, made in a dairy protein-free facility, soy oil free, no artificial colors, flavors, sweeteners, halal.</p> <p>Per 100kcal (5 fl oz): 2.8 g pro, 4.8 g fat, 11.3 g CHO, 1.5 mg iron</p> <p>Osmolality: 360 mOsm/kg</p> <p>Caution: For use in infants only under medical supervision.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 4 cans/case</p> <p>(20 kcal/fl) Reconstituted: 95 fl oz</p> <p>Standard dilution = 8 scoops (37.6 g) to 8 fl oz water yields 9 fl oz formula</p> | <p>Protein (11.4% kcals) - Free amino acids</p> <p>Fat (43.4% kcals) - Refined vegetable oils: (MCT, high oleic sunflower oil, sunflower oil, canola oil.)</p> <p>CHO (45.2% kcals) - Corn syrup solid, FOS</p> |

| | | | |
|--|---|---|---|
| <p>NEPRO Nutrition Shake (Abbott Nutrition) USE: A nutritionally complete <u>medical food</u> (Nutritional - renal oral supplement/tube feed) for <u>older children and adults on dialysis with chronic or acute renal failure</u>. Carb steady blend may help manage blood glucose response. Contains FOS (a prebiotic that may help promote gut health). Kosher, gluten-free, lactose-free, low-residue.</p> <p>Per 8 fl oz: 425 kcals (1.8 kcals/ml), 19.1 g pro, 22.7 g fat, 37.9 g CHO, 4.5 mg iron</p> <p>Flavors: homemade vanilla, butter pecan, mixed berry</p> <p>CAUTION: For use only under strict medical supervision. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml) can RTF 24 cans/case</p> <p>1000 ml container Ready-To-Hang <i>(Vanilla only)</i></p> | <p>Protein (18% kcals) - Calcium, magnesium and sodium caseinates, milk protein isolate</p> <p>Fat (48% kcals) - High oleic safflower oil, canola oil, soy lecithin</p> <p>CHO (34% kcals) - Corn syrup solids, sugar, corn maltodextrin, glycerin, FOS</p> |
| <p>NOVASOURCE RENAL (Nestle Health Science) USE: A high-calorie, high-protein <u>medical food</u> (Nutritional - renal tube feed) for <u>older children and adults with renal disease or fluid restrictions</u>. Contains no added sucrose or sugar alcohols. Novartis patented NutriShield ingredients may add microbial protection. Kosher, lactose-free, low-residue, gluten-free.</p> <p>Per 237 ml (2 kcals/mL): 475 kcals, 21.6 g pro, 23.8 g fat, 43.5 g CHO, 4.3 mg iron</p> <p>Flavors: vanilla</p> <p>CAUTION: For use only under medical supervision. Not for individuals with galactosemia. Not suitable for parenteral.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml) tetra brik pak RTF 27 brik paks/case</p> <p>1000 ml closed system containers 6 containers/case</p> | <p>Protein (18% kcals) - Sodium and calcium caseinates (milk), L-Carnitine, isolated soy protein</p> <p>Fat (45% kcals) - Canola oil</p> <p>CHO (37% kcals) - Corn syrup, sugar, maltodextrin</p> |
| <p>NUTRAMIGEN (Mead Johnson) (Previously NUTRAMIGEN LIPIL) USE: An <u>infant formula</u> (hypoallergenic) for <u>infants with sensitivity to intact proteins found in milk-based and soy-based formulas (symptoms may include colic, congestion, runny nose, wheezing, vomiting, diarrhea, bloody stools, mucus in stools, rash or eczema)</u>. Iron-fortified. Lactose-free. DHA, ARA.</p> <p>Per 100 kcals: 2.8 g pro, 5.3 g fat, 10.3 g CHO, 1.8 mg iron</p> <p>Osmolality: 260-320 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not recommended for routine use in VLBW infants, as these infants may be at increased risk of developing gastrointestinal complications.</p> | <p>Approved with Medical Documentation form.</p> | <p>13 fl oz can concentrate 12 cans/case Reconstituted: 26 fl oz</p> <p>2 fl oz bottle RTF 48 bottles/case</p> <p>6 fl oz bottle RTF 24 bottles/case</p> <p>8 fl oz bottle RTF 24 bottles/case</p> <p>32 fl oz bottle RTF 6 cans/case</p> | <p>Protein (11% kcals) - Casein hydrolysate, amino acids</p> <p>Fat (48% kcals) - Vegetable oil (palm olein, soy, coconut, high oleic sunflower oils), DHA, ARA</p> <p>CHO (41% kcals) - Corn syrup solids, modified corn starch</p> |

| | | | |
|--|---|---|---|
| <p>NUTRAMIGEN with ENFLORA LGG (Mead Johnson)</p> <p>USE: An <u>infant formula</u> (fully hydrolyzed, hypoallergenic) for <u>infants with cow's milk protein allergy and soy formulas</u>. May be used for children greater than 12 months of age as a milk source, but the calcium level must be assessed. Contains <i>Lactobacillus rhamnosus GG</i> to support a healthy immune system and maintain normal gut barrier function. Iron-fortified. lactose-free. DHA, ARA.</p> <p>Per 100 kcals: 2.8 g pro, 5.3 g fat, 10.3 g CHO, 1.8 mg iron</p> <p>Osmolality: 300 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not recommended for routine use in VLBW infants, as these infants may be at increased risk of developing gastrointestinal complications. Contains milk and soy.</p> | <p>Approved with Medical Documentation form.</p> | <p>12.6 oz can powder 6 cans/case Reconstituted: 87 fl oz</p> <p>19.8oz can powder 4 cans/case Reconstituted: 139 fl oz</p> <p>Standard dilution = 20 kcals/oz: 1 scoop powder (9 g) to every 2 fl oz water</p> | <p>Protein (11% kcals) - Casein hydrolysate</p> <p>Fat (48% kcals) - Vegetable oil (palm olein, coconut, soy, high oleic sunflower oils), DHA, ARA</p> <p>CHO (41% kcals) - Corn syrup solids, modified corn starch</p> |
| <p>NUTRAMIGEN with ENFLORA LGG TODDLER (Mead Johnson)</p> <p>USE: An <u>infant formula</u> (fully hydrolyzed, hypoallergenic) for older infants and toddlers with <u>cow's milk protein allergy or soy formulas</u>. Contains <i>Lactobacillus rhamnosus GG</i> to support a healthy immune system and maintain normal gut barrier function. Iron-fortified. lactose-free. DHA, ARA.</p> <p>Per 100 kcals: 2.5 g pro, 4.3 g fat, 12.8 g CHO, 1.6 mg iron</p> <p>Osmolality: 300 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision.</p> | <p>Approved with Medical Documentation form.</p> | <p>12.6 oz can powder 6 cans/case Reconstituted: 86 fl oz</p> <p>Standard dilution = 20 kcals/oz: 1 scoop powder (9 g) to every 2 fl oz water</p> | <p>Protein (10% kcals) - Casein hydrolysate, amino acids</p> <p>Fat (39% kcals) - Vegetable oil (palm olein, soy, coconut, high oleic sunflower oils), DHA, ARA</p> <p>CHO (51% kcals) - Corn syrup solids, modified corn starch</p> |

| <p>PREGESTIMIL (Mead Johnson) PREGESTIMIL 20/24 USE: An <u>infant formula</u> (hypoallergenic) for <u>infants with gastrointestinal problems</u> (fat malabsorption and sensitivity to intact proteins). Fat Malabsorption or steatorrhea may be associated with cystic fibrosis, SBS, intractable diarrhea, and severe protein calorie malnutrition. DHA, ARA. Iron-fortified. Lactose-free. Available in 24 cal in 2 fl oz bottles only.</p> <p>Per 100 kcals: 2.8 g pro, 5.6 g fat, 10.2 g CHO, 1.8 mg iron</p> <p>Osmolality: 290-340 mOsm/kg</p> <p>CAUTION: For use only under medical supervision. Not recommended for routine use in VLBW infants who may be at increased risk of developing gastrointestinal complications.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case Reconstituted: 112 fl oz</p> <p>Standard dilution = 20 kcals/oz: 1 scoop (8.9 g) powder to 2 fl oz water</p> <p>2 fl oz bottle RTF 48 bottles/case (available in 20 and 24 kcal)</p> | <p>Protein (11% kcals) - Casein hydrolysate, amino acids</p> <p>Fat (49% kcals) - MCT oil, soy oil, corn oil, high oleic oil (safflower or sunflower), DHA, ARA</p> <p>CHO (40% kcals) - Corn syrup solids, modified corn starch</p> |
| <p>PRODUCT 3232A (Mead Johnson) USE: A protein hydrolysate <u>infant formula and medical food</u> (hypoallergenic) for <u>infants and children with disaccharidase deficiencies or other disorders of carbohydrate metabolism</u>. To be used with added carbohydrate. Contains tapioca starch. Lactose-free.</p> <p>Per 100 g: 500 kcals, 22 g pro, 33 g fat, 33 g CHO, 11.8 mg iron</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. For long-term use, additional fatty acids should be considered. Not for parenteral use. Contains milk and soy</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case Reconstituted amount unavailable. Follow Rx as directed by physician</p> <p>Standard dilution = 20 kcals/oz</p> <p>1/2 cup powder = 81 g</p> | <p>Protein (11% kcals) - Casein hydrolysate, amino acids</p> <p>Fat (35% kcals) - MCT (82%), corn oil</p> <p>CHO (54% kcals) - Modified tapioca starch</p> |
| <p>PROMOD LIQUID PROTEIN (Abbott Nutrition) USE: A <u>medical food</u> (Nutritional) for <u>children and adults with increased protein needs with hydrolyzed collagen</u> including <u>wounds, protein-energy malnutrition, involuntary weight loss, pre/post surgery, anorexia, stress, trauma, cancer, and burns</u>. Gluten-free, lactose-free.</p> <p>Per 1 fl oz: 100 kcals (3.3 kcals/ml), 10 g pro, 0 g fat, 14 g CHO,</p> <p>Flavors: Fruit punch</p> <p>CAUTION: Use under medical supervision. Not intended as sole source of nutrition.</p> | <p>Approved with Medical Documentation form.</p> | <p>32 fl oz bottle 6 bottles/case</p> | <p>Protein (40% kcals) - Hydrolyzed beef collagen, L-tryptophan</p> <p>Fat (0% kcals)</p> <p>CHO (60% kcals) - Glycerin</p> |

| | | | |
|--|---|---|---|
| <p>PROMOTE PROMOTE with FIBER (Abbott Nutrition) USE: A nutritionally complete, very-high protein <u>medical food</u> (Nutritional - tube feed/oral supplement) for <u>older children and adults</u> with <u>low caloric needs or at risk for protein-energy malnutrition or pressure ulcers</u>. Kosher, gluten-free, lactose-free, low-residue (without fiber).</p> <p>Per 8 fl oz: 237 kcals (1 kcal/ml), 14.8 g pro, 6.2-6.7 g fat, 30.8-32.8 g CHO, 4.3 mg iron (w/fiber 3.4g)</p> <p>Osmolality: 340-380 mOsm/kg</p> <p>Flavors: vanilla</p> <p>CAUTION: For use only under medical supervision. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>8 fl oz (237 ml) can RTF 24 cans/case</p> <p>1000 ml Ready-To-Hang 8 containers/case</p> <p>1500 ml Ready-To-Hang 6 containers/case</p> | <p>Protein (25% kcals) - Sodium caseinates, soy protein isolate, L-Carnitine</p> <p>Fat (23-25% kcals) - Soy oil, MCT, Safflower oil, Soy Lecithin</p> <p>CHO (50-52% kcals) - Corn maltodextrin, sucrose, <i>oat fiber, soy fiber (with fiber)</i></p> |
| <p>PRO-PHREE (Abbott Nutrition) USE: A protein-free <u>infant formula and medical food</u> (Nutritional) for <u>infants and toddlers</u> in need of <u>extra calories, minerals and vitamins or on a protein restriction</u>. Supplemented with L-carnitine and taurine. Iron-fortified. Lactose free, Gluten-free.</p> <p>Per 100 g: 510 kcals, 0 g pro, 28 g fat, 65 g CHO, 11.9 mg iron</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Reconstituted: 102 fl oz</p> <p>Standard dilution = 20 kcals/oz Follow Rx as directed by physician.</p> <p>1 Tbsp powder = 8 g</p> | <p>Protein (0% kcals) - None added</p> <p>Fat (49% kcals) - High oleic safflower oil, coconut oil, soy oil</p> <p>CHO (50% kcals) - Corn syrup solids</p> |
| <p>PROPIMEX - 1 (Abbott Nutrition) USE: A methionine- and valine-free <u>infant formula and medical food</u> (Nutritional) for <u>infants and toddlers</u> with <u>propionic or methylmalonic acidemia</u>. Low in isoleucine, threonine. Supplemented with taurine. Fortified with L-carnitine and iron.</p> <p>Per 100 g: 480 kcals, 15 g pro, 21.7 g fat, 53 g CHO, 9 mg iron</p> <p>CAUTION: Must only be given to infants and toddlers with proven propionic or methylmalonic acidemia, under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Reconstituted: 96 fl oz</p> <p>Standard dilution = 20 kcals/oz Follow Rx as directed by physician.</p> <p>1 Tbsp powder = 8 g</p> | <p>Protein (13% kcals) - L-Amino acids (without methionine, valine)</p> <p>Fat (40% kcals) - High oleic safflower oil, coconut oil, soy oil</p> <p>CHO (44% kcals) - Corn syrup solids</p> |

| | | | |
|--|---|--|--|
| <p>PROPIMEX - 2 (Abbott Nutrition) USE: A methionine- and valine-free <u>medical food</u> (Nutritional) for <u>children and adults</u> with <u>propionic or methylmalonic acidemia</u>. Low in isoleucine, threonine. Supplemented with taurine. Fortified with L-carnitine.</p> <p>Per 100 g: 410 kcals, 30 g pro, 13 g fat, 35 g CHO, 13 mg iron</p> <p>CAUTION: Must only be given to children and adults with proven propionic or methylmalonic acidemia, under strict medical supervision. Not intended as a sole source of nutrition. |--|---|---|---|
| <p>REPLETE REPLETE FIBER (Nestle Health Science) (Previously NUTREN REPLETE) USE: A nutritionally complete, high-protein <u>medical food</u> (Nutritional - oral supplement/tube feed) for <u>older children and adults recovering from surgery, stage 1 to unstageable pressure sores, burns or minor surgical wounds, and high protein needs</u>. Formulated to support healing and protein repletion. Kosher, lactose-free, gluten-free, low-residue (without fiber).</p> <p>Per 250 ml: 250 kcals, (1kcal/mL) 16 g pro, 8.5 g fat, 28 -31 g CHO, 3.5- 4 mg iron (w/ fiber 3.8 g fiber)</p> <p>Osmolality: 300-330 mOsm/kg</p> <p>Flavors: unflavored</p> <p>CAUTION: For use only under strict medical supervision. Not for individuals with galactosemia. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>8.45 fl oz (250 ml) can RTF 24 cans/case</p> <p>UltraPak enteral closed system:</p> <p>1000 ml bag RTF 6 bags/case</p> <p>1500 liter bag RTF 4 bags/case <i>(Nutren Replete Fiber only)</i></p> | <p>Protein (25% kcals) - Sodium, and calcium caseinate (Milk) <i>(with fiber only)</i> soy protein isolate</p> <p>Fat (30% kcals) (MCT 25%, LCT 75%) - Canola oil, MCT (fractionated coconut and palm kernel oil) <i>(with fiber only)</i> soy lecithin</p> <p>CHO (45% kcals) - Corn syrup, maltodextrin, <i>(With fiber only)</i> pea fiber, FOS, inulin, gum acacia,</p> |
| <p>SIMILAC Pro-ADVANCE (Abbott Nutrition) Previously Similac Advance Pro USE: A milk-based <u>infant formula</u> for <u>infants birth to 12 months old with no special nutritional requirements</u>. Contains blend of prebiotics, nucleotides, and antioxidants. Considered Stage 1. DHA, ARA. Iron-fortified. Gluten- free. Lutein.</p> <p>Per 100 kcals: 2.07 g pro, 5.6 g fat, 10.5 g CHO, 1.9 mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not WIC Approved</p> | <p>30.8 oz (873 g) can powder 4 cans/case Reconstituted: 90 fl oz</p> <p>Standard dilution = 19 kcals/oz: 1 scoop (8.2 g) powder to every 2 fl oz water.</p> <p>13 fl oz can concentrate 12 cans/case Reconstituted: 26 fl oz</p> <p>32 fl oz bottle RTF 6 or 8 bottles/case</p> | <p>Protein (8% kcals) - Nonfat milk, whey protein concentrate</p> <p>Fat (49% kcals) - High oleic safflower, soy, and coconut oil, DHA, ARA</p> <p>CHO (43% kcals) - Lactose, Galacto-Oligosaccharides (GOS), FOS</p> |

| | | | |
|--|--|---|---|
| <p>SIMILAC ADVANCE (Abbott Nutrition)</p> <p>USE: A milk-based <u>infant formula</u> for <u>infants</u> 0-12 months old with <u>no special nutritional requirements with iron</u>. Designed for older infants when feeding solids. Considered Stage1. DHA, ARA. Iron-fortified. Gluten- free, Lutein.</p> <p>Per 100 kcals: 2.07 g pro, 5.6 g fat, 10.7 g CHO, 1.9 mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Standard WIC Contract Formula. (No RX needed for infants)</p> | <p>30.8 oz (873 g) can powder 4 cans/case or 6 cans/case</p> <p>Reconstituted: 234 fl oz</p> <p>Standard dilution = 19 kcals/oz: 1 scoop (8.3 g) powder to every 2 fl oz water.</p> <p>RTF options available.</p> | <p>Protein - Nonfat milk, whey protein concentrate</p> <p>Fat - High oleic safflower, soy, and coconut oil, DHA, ARA, soy lecithin</p> <p>CHO - Lactose, GOS</p> |
| <p>SIMILAC ADVANCE NON-GMO (Abbott Nutrition)</p> <p>USE: A milk-based <u>infant formula</u> for <u>infants</u> 0-12 months old with <u>no special nutritional requirements</u>. Designed for older infants when feeding solids. Ingredients not genetically engineered. Considered Stage1. DHA, ARA. Iron-fortified. Gluten- free, Lutein.</p> <p>Per 100 kcals (5.3 fl oz): 2.07 g pro, 5.6 g fat, 10.7 g CHO, 1.9 mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not WIC Approved.</p> | <p>23.2 oz (658 g) can powder 6/case</p> <p>Reconstituted: 176 fl oz</p> <p>Standard dilution = 19 kcals/oz: 1 scoop (8.3 g) powder to every 2 fl oz water.</p> <p>RTF option available.</p> | <p>Protein - Nonfat milk, whey protein concentrate</p> <p>Fat - High oleic safflower, soy, and coconut oil, DHA, ARA</p> <p>CHO - Lactose, GOS</p> |
| <p>SIMILAC ORGANIC (Abbott Nutrition)</p> <p>USE: A milk-based <u>infant formula</u> (certified USDA organic) for <u>infants</u> with <u>no special nutritional requirements</u>. DHA, ARA. Iron-fortified. Lutein.</p> <p>Per 100 kcals (5 fl oz): 2.07 g pro, 5.63 g fat, 10.4 g CHO, 1.8 mg iron</p> <p>CAUTION: Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not WIC Approved.</p> | <p>23.2 oz (658 g) can powder 6 cans/case</p> <p>Standard dilution = 20 kcals/oz: 1 scoop (8.6 g) powder to every 2 fl oz water.</p> <p>32 fl oz bottle RTF 6 bottles/case</p> | <p>Protein (8% kcals) - Organic nonfat milk</p> <p>Fat (49% kcals) - Organic high oleic safflower oil, organic soy oil, organic coconut oil, DHA, ARA</p> <p>CHO (43% kcals) - Organic maltodextrin, organic sugar</p> |

| | | | |
|--|--|---|--|
| SIMILAC ALIMENTUM (Abbott Nutrition) (Previously SIMILAC EXPERT CARE ALIMENTUM) USE: An <u>infant formula</u> (Nutritional - hypoallergenic) for <u>infants</u> with colic symptoms due to protein sensitivity, <u>severe food allergies</u> , sensitivity to intact protein, <u>protein maldigestion or fat malabsorption</u> . Hydrolyzed casein supplemented with free amino acids. MCT, DHA, ARA. Iron-fortified. Gluten-free. Corn-free (RTF only). Per 100 kcals (5 fl oz): 2.75 g pro, 5.54 g fat, 10.2 g CHO, 1.8 mg iron CAUTION: For use only under medical supervision. | Approved with Medical Documentation form. | 12.1 oz (343 g) can powder 6 cans/case Reconstituted: 87 fl oz Standard dilution = 20 kcals/oz: 1 scoop (8.7 g) powder to every 2 fl oz water. 8 fl oz can RTF 6 cans/case 32 fl oz bottle RTF 6 bottles/case | Protein (11% kcals) - Casein hydrolysate, amino acids Fat (48% kcals) - High oleic Safflower oil, MCT, soy oil, DHA, ARA CHO (41% kcals) - corn maltodextrin, sugar |
| SIMILAC FOR DIARRHEA (Abbott Nutrition) (Previously SIMILAC EXPERT CARE FOR DIARRHEA) USE: A soy-based <u>infant formula</u> (lactose-free) for <u>infants older than 6 months and toddlers</u> with <u>diarrhea</u> . Iron-fortified. Gluten-free. Soy fiber. Per 100 kcals (5 fl oz): 2.66 g pro, 5.46 g fat, 10.1 g CHO, 1.8 mg iron, 0.9 g fiber Osmolality: 240 mOsm/kg CAUTION: Must only be used under medical supervision. Should not be fed to infants or toddlers with constipation. May not be appropriate for long-term use. | Approved with Medical Documentation form. | 8 fl oz (237mL) can RTF 24 cans/case 32 fl oz (946 mL) can RTF 6 cans/case Standard dilution = 20 kcals/oz | Protein (11% kcals) - Soy protein isolate, amino acids Fat (49% kcals) - Soy oil, coconut oil CHO (40% kcals) - Corn syrup, sugar, soy fiber. |
| SIMILAC NEOSURE (Abbott Nutrition) (Previously SIMILAC EXPERT CARE NEOSURE) USE: A high-calorie <u>infant formula</u> (premature) for <u>infants</u> in need of <u>extra calories and nutrients</u> . For use as a preterm, post discharge formula. Contains higher levels of protein, vitamins, and minerals than standard term formulas to promote greater weight gain and growth. MCT, DHA, ARA. Gluten-free, halal, kosher, Iron-fortified. Per 100 kcals (4.5 fl oz): 2.8 g pro, 5.5 g fat, 10.1 g CHO, 1.8 mg iron Osmolality: 250 mOsm/kg CAUTION: For use only under strict medical supervision. The AAP supports the use of preterm discharge formulas to a postnatal age of 9 months. | Approved with Medical Documentation form. | 13.1 oz (371 g) can powder 6 cans/case Reconstituted: 87 fl oz Standard dilution = 22 kcals/oz: 1 scoop (9.6 g) powder to every 2 fl oz water. 2 fl oz (59 mL) plastic bottle RTF 48 bottles/case 32 fl oz (946 mL) bottle RTF 6 bottles/case | Protein (11% kcals) - Nonfat milk, whey protein concentrate Fat (50% kcals) - Soy oil, high oleic safflower oil, MCT, coconut oil, DHA, ARA CHO (40% kcals) - Corn syrup solids, lactose |

| | | | |
|---|---------------------------------------|--|---|
| <p>SIMILAC GO & GROW Toddler Drink– MILK BASED FORMULA (Abbott Nutrition) USE: A milk-based <u>medical food</u> (Nutritional) for <u>toddlers (12-24 months)</u> with <u>no special nutritional requirements</u>. DHA, ARA, Prebiotics, Lutein, Carotenoids. Iron-fortified. Gluten- Free, Halal, Kosher.</p> <p>Per 1/3 cup powder (35g dry powder): 150 kcals, 4 g pro, 8 g fat, 16 g CHO</p> <p>Osmolality: 300 mOsm/kg</p> <p>CAUTION: Not for children with galactosemia. Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not Idaho WIC Approved.</p> | <p>2.13-LB (964 g) or 1.38-LB (624 g) SimplePac 6/case</p> <p>Standard dilution = 19 kcals/oz: Add 8 fl oz water to 1/3 cup powder</p> | <p>Protein (12% kcals) - Nonfat milk</p> <p>Fat (49% kcals) - High oleic safflower oil, soy oil, coconut oil, DHA, ARA</p> <p>CHO (39% kcals) - Lactose, GOS</p> |
| <p>SIMILAC GO & GROW NON-GMO– MILK BASED FORMULA (Abbott Nutrition) USE: A milk-based <u>medical food</u> (Nutritional) for <u>toddlers (12-24 months)</u> with <u>no special nutritional requirements</u>. Ingredients not genetically engineered. DHA, ARA, Prebiotics, Lutein, Carotenoids. Iron-fortified. Gluten- Free.</p> <p>Per 1/3 cup (35g dry powder) = 150 kcals, 4g pro, 8g fat, 16 g CHO</p> <p>CAUTION: Not for children with galactosemia. Evaluate if formula is mixed, used, and stored properly.</p> | <p>Not WIC Approved.</p> | <p>1.38-LB (624 g) SimplePac 6/case</p> <p>Standard dilution = 19 kcals/oz: Add 8 fl oz water to 1/3 cup powder</p> | <p>Protein - Nonfat milk</p> <p>Fat - High oleic safflower oil, soy oil, coconut oil, DHA, ARA</p> <p>CHO - Lactose, GOS</p> |
| <p>SIMILAC GO & GROW SENSITIVE– MILK BASED FORMULA (Abbott Nutrition) USE: A milk-based <u>medical food</u> (Nutritional) for <u>toddlers (12-24 months)</u> with <u>lactose sensitivity</u>. DHA. Kosher. Gluten- Free. Prebiotics, Lutein.</p> <p>Per 1/3 cup (35g dry powder) = 150 kcals, 4g pro, 8g fat, 16 g CHO</p> <p>CAUTION: Not for children with galactosemia. | | | | |
|---|---------------------------------|---|--|
| <p>VITAL 1.5 CAL (Abbott Nutrition) USE: A <u>medical food</u> (Nutritional - peptide-based elemental oral supplement/tube feed) for <u>older children and adults</u> with <u>malabsorption, maldigestion and other GI conditions when hydrolyzed protein is indicated</u>. Contains FOS (a prebiotic that may help promote gut health). Kosher, gluten-free, lactose-free.</p> <p>Per 8 fl oz: 355 kcals (1.5 kcal/ml), 16 g pro, 13.5 g fat, 44.2 g CHO, 4.3 mg iron</p> <p>Osmolality: 610 mOsm/kg</p> <p>CAUTION: For use only under strict medical supervision. Not for individuals with galactosemia. Not for parenteral use.</p> | <p>Not WIC Approved</p> | <p>8 fl oz (237 ml) can RTF 24 cans/case</p> <p>1000 ml container Ready-To-Hang 8 containers/case</p> | <p>Protein (18% kcals) - Whey protein hydrolysate, sodium caseinate</p> <p>Fat (33% kcals) - Structured lipid (interesterified canola and MCT), MCT, canola oil, FOS</p> <p>CHO (49% kcals) - Corn maltodextrin, sucrose</p> |
| <p>VITAL AF 1.2 CAL (Abbott Nutrition) USE: A <u>medical food</u> (Nutritional - partially hydrolyzed oral supplement/tube feed) for <u>older children and adults</u> with <u>chronically impaired gastrointestinal function (maldigestion, malabsorption)</u>. Contains peptides and free amino acids to use the dual protein absorption system of the gut. Gluten-free, low-lactose, low-residue, low fat.</p> <p>Per 8fl oz: 284 kcals (1.2 kcal/ml), 17.8 g pro, 12.8 g fat, 26.2 g CHO, 3.6 mg iron</p> <p>Osmolality: 424 mOsm/kg</p> <p>Flavors: vanilla</p> <p>CAUTION: For use only under strict medical supervision. Not for parenteral use. Not for individuals with galactosemia.</p> | <p>Not WIC approved.</p> | <p>8 fl oz can RTF 24 cans/case</p> <p>1000 ml container Ready-To-Hang 8 containers/case</p> | <p>Protein (16.7% kcals) - Partially hydrolyzed soy/collagen, whey protein concentrate, whey protein hydrolysate, amino acids</p> <p>Fat (9.5% kcals) - Safflower oil, MCT</p> <p>CHO (73.8% kcals) - Corn maltodextrin, sucrose</p> |

| | | | |
|--|---|---|---|
| <p>Vital Peptide 1.5 (Abbott Nutrition) USE: The only peptide-based nutrition specifically developed to meet the DRIs of patients ages 14-18. Contains hydrolyzed protein, structure lipids, and prebiotics to provide complete balanced nutrition.</p> <p>Per 8oz: 355kcal, 16g pro, 13.5g fat, 44.3g CHO, 4.3mg Iron</p> <p>Osmolality: 610mOsm/kg H₂O</p> <p>Flavors: Vanilla</p> <p>CAUTION: Not for IV use, not for people with galactosemia.</p> | <p>Not Idaho WIC Approved</p> | <p>8fl oz 24 carton/case</p> | <p>Protein: 18% kcals</p> <p>Fat: 33% kcals</p> <p>CHO: 49% kcals</p> |
| <p>VIVONEX PEDIATRIC (Nestle Health Science) USE: A nutritionally complete medical food (Nutritional - pediatric elemental tube feed/oral supplement) for <u>children ages 1-13 with severely impaired GI function from severe short bowel syndrome, Crohn's disease, fat malabsorption, intestinal failure, GI trauma/ surgery, malabsorption syndrome, burn injuries, and transition to TPN.</u> Kosher, lactose-free, low-residue, gluten-free.</p> <p>Per 250 ml formula (1 pkt): 200 kcals (0.8 kcal/mL), 6 g pro, 5.8 g fat, 32 g CHO, 2.5 mg iron</p> <p>Osmolality: 360 mOsm/kg</p> <p>CAUTION: For use only under medical supervision. Not for parenteral use. Not for individuals with galactosemia.</p> | <p>Approved with Medical Documentation form.</p> | <p>1.7 oz (48.5 g) packet powder 36 packets/case</p> <p>Standard dilution: Mix 1 packet powder with 220 ml water to yield 250 ml formula.</p> | <p>Protein (12% kcals) - Free amino acids</p> <p>Fat (25% kcals) - MCT oil, soybean oil</p> <p>CHO (63% kcals) - Maltodextrin, modified cornstarch</p> |

| | | | |
|---|---|--|--|
| <p>VIVONEX PLUS (Nestle Health Science) USE: A nutritionally complete, high-protein, low-fat <u>medical food</u> (Nutritional) for <u>children greater than 3 years of age and adults with severely impaired GI function from severe protein and fat malabsorption, transitional feeding, extensive bowel resections, malabsorption syndrome, severe trauma/ surgery, early post-op feeding, intestinal failure, pancreatitis, chylothorax, trophic feeding, TPN alternative, Dual feeding with TPN.</u> Kosher, lactose-free, low-residue, gluten-free.</p> <p>Per 300 ml formula (1 pkt): 300 kcals (1 kcal/mL), 13 g pro, 2 g fat, 58 g CHO, 3 mg iron</p> <p>Osmolality: 650 mOsm/kg</p> <p>CAUTION: For use only under medical supervision. Not for parenteral use. Not appropriate for use in individuals 0-3 years old.</p> | <p>Approved with Medical Documentation form.</p> | <p>2.8 oz (79.5 g) packet powder 36 packets/case</p> <p>Standard dilution: Mix 1 packet powder with 250 ml water to yield 300 ml formula.</p> | <p>Protein (17% kcals) (30% from BCAA) - Free amino acids</p> <p>Fat (6% kcals) - Soybean oil</p> <p>CHO (77% kcals) - Maltodextrin, modified cornstarch</p> |
| <p>VIVONEX RTF (Nestle Health Science) USE: A nutritionally complete, high-protein, low-fat <u>medical food</u> (Nutritional) for <u>children greater than 3 years of age and adults with severely impaired GI function from severe protein and fat malabsorption, transitional feeding, extensive bowel resections, malabsorption syndrome, severe trauma/ surgery, early post-op feeding, intestinal failure, pancreatitis, chylothorax, trophic feeding, TPN alternative, dual feeding with TPN.</u> Contains arginine and BCAA. This has low fat to reduce pancreatic stimulation. Kosher, lactose-free, low-residue, gluten-free.</p> <p>Per 250 mL: 250 kcals (1 kcal/mL), 12.5 g pro, 2.9 g fat, 44 g CHO, 3 mg iron</p> <p>Osmolality: 630 mOsm/kg</p> <p>CAUTION: For use only under medical supervision. Not for parenteral use. Not for individuals with galactosemia.</p> | <p>Approved with Medical Documentation form.</p> | <p>8.45 oz (250 ml) can RTF 24 cans/case</p> <p>1000 ml closed system container 6 containers/case</p> | <p>Protein (20% kcals) (29% from BCAA) - Free amino acids</p> <p>Fat (10% kcals) - Soybean oil, MCT oil (coconut or palm kernel oil)</p> <p>CHO (70% kcals) - Maltodextrin, modified cornstarch, dextrose</p> |

| | | | |
|--|---|---|--|
| <p>VIVONEX T.E.N (Nestle Health Science) USE: A nutritionally complete, high-nitrogen, low-fat <u>medical food</u> (Nutritional) for <u>children greater than 3 years of age and adults with severely impaired GI function from severe protein and fat malabsorption, transitional feeding, extensive bowel resections, malabsorption syndrome, severe trauma/ surgery, early post-op feeding, intestinal failure, pancreatitis, chylothorax, trophic feeding, TPN alternative, dual feeding with TPN.</u> Enriched with glutamine and arginine. Kosher, lactose-free, low-residue, gluten-free.</p> <p>Per 300 mL (1 pkt): 300 kcals (1 kcal/mL), 11.5 g pro, 0.8 g fat, 61.7 g CHO, 2.7 mg iron</p> <p>Osmolality: 630 mOsm/kg</p> <p>CAUTION: For use only under medical supervision. Not appropriate for use in individuals 0-3 years old. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>2.84 oz packet powder 10 packets/ box 6 boxes/case</p> <p>Standard dilution: Mix 1 packet powder with 250 ml water to yield 300 ml formula.</p> | <p>Protein (14% kcals) - Free amino acids</p> <p>Fat (3% kcals) - Safflower oil</p> <p>CHO (83% kcals) - Maltodextrin, modified cornstarch</p> |
| <p>WND 1 (Mead Johnson) USE: A non-essential amino-acid free <u>infant formula</u> (metabolic) for <u>infants and toddlers with urea cycle disorders.</u> Contains increased levels of B vitamins for cofactor production, choline. Iron- fortified. DHA/ARA. Lactose-free, Halal. Vanilla scent.</p> <p>Per 100 g: 500 kcals, 6.5 g pro, 26 g fat, 60 g CHO, 9.6 mg iron</p> <p>Osmolality: 280 mOsm/kg at 20 kcal/oz</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Reconstituted amount unavailable Follow Rx as directed by physician.</p> <p>1 scoop powder = 4.5 g</p> | <p>Protein (5% kcals) - Essential amino acids</p> <p>Fat (47% kcals) - Vegetable oil (palm olein, coconut, soy, and high oleic sunflower oils), DHA, ARA</p> <p>CHO (48% kcals) - Corn syrup solids, modified corn starch, sugar</p> |
| <p>WND 2 (Mead Johnson) USE: A non-essential amino-acid free <u>medical food</u> (Nutritional) for <u>children and adults with urea cycle disorders.</u> Provides essential amino acids, CHO, fats, essential fatty acids, vitamins and minerals. Iron fortified. Lactose-free, Halal. Vanilla scent.</p> <p>Per 100 g: 410 kcals, 8.2 g pro, 10.2 g fat, 71 g CHO, 14.3 mg iron</p> <p>CAUTION: For use only under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Reconstituted amount unavailable. Follow Rx as directed by physician.</p> <p>1 scoop powder = 14.5 g</p> | <p>Protein (8% kcals) - Essential amino acids</p> <p>Fat (23% kcals) - Soy oil</p> <p>CHO (69% kcals) - Corn syrup solids, sugar, modified corn starch</p> |

|--|---|--|--|
| <p>IVA ANAMIX EARLY YEARS (Nutricia Advanced Medical Nutrition) (will replace XLEU ANALOG) USE: A leucine-free <u>infant formula</u> (metabolic) for <u>infants 0-12 months</u> and as a supplementary with <u>isovaleric acidemia</u> and <u>other proven disorders of leucine metabolism</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, fat vitamins, minerals and trace elements. For oral use or tube feeding. Contains DHA, ARA. Prebiotics. Iron fortified. Unflavored. Contains milk, soy, coconut.</p> <p>Per 100 g: 473 kcals, 13.5 g pro, 23 g fat, 53 g CHO, 7.3 mg iron</p> <p>Osmolality (at 21 kcal/fl oz): 380 mOsm/kg</p> <p>CAUTION: Must only be given to infants with proven isovaleric acidemia and other disorders of leucine metabolism under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Recommended dilution = 21kcal/oz: 1 scoop (5 g) powder to every 1 fl oz water</p> <p>Reconstituted 90 fl oz</p> <p>Intake dependent on age, body weight and medical condition.</p> | <p>Protein - Amino acids (without leucine)</p> <p>Fat - Refined vegetable oil (High oleic sunflower,soy, non-hydrogenated coconut, canola, sunflower) DHA, ARA</p> <p>CHO - Corn syrup solids, GOS, Dried Syrup, FOS</p> |
| <p>IVA ANAMIX NEXT (Nutricia Advanced Medical Nutrition) USE: A leucine-free <u>medical food</u> (Nutritional) for <u>individuals over 1 year of age</u> with <u>isovaleric acidemia</u> and <u>other proven disorders of leucine metabolism</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, fat, vitamins, minerals and trace elements. Contains DHA. Multi-fiber mix. Plain. Contains soy, coconut.</p> <p>Per 100 g: 377 kcals, 28 g pro, 12.5 g fat, 41.2 g CHO, 12.5 mg iron</p> <p>Osmolality (at 1 kcal/ml): 1220 mOsm/kg</p> <p>CAUTION: Must only be given to infants with proven vitamin B₆ non-responsive homocystinuria or hypermethioninemia under strict medical supervision. This product is not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Recommended dilution = 1.1 kcal/ml: 4 scoop (36 g) powder to every 3.5 fl oz (100ml) water</p> <p>Reconstituted 46 fl oz</p> <p>amount varies. Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein - Amino acids (without leucine)</p> <p>Fat - Refined vegetable oil (High oleic sunflower, canola, MCT (palm kernel and/or coconut oil) sunflower), C. Cohnii oil (DHA)</p> <p>CHO - Corn syrup solids, FOS, inulin, corn starch, microcrystalline cellulose</p> |

| | | | |
|---|---|---|---|
| <p>XLEU MAXAMUM (Nutricia Advanced Medical Nutrition) USE: A leucine-free <u>medical food</u> (Nutritional) for <u>older children and adults</u> (including <u>pregnant women</u>) with <u>isovaleric acidemia</u> and other proven disorders of <u>leucine metabolism</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, vitamins, minerals and trace elements and less than 1 g of fat. Contains Soy.</p> <p>Per 100 g: 305 kcals, 40 g pro, <1 g fat, 34 g CHO, 14.7 mg iron.</p> <p>Osmolality: 1 to 7 dilution - 800 mOsm/kg 1 to 5 dilution - 1120 mOsm/kg</p> <p>Flavors: orange</p> <p>CAUTION: Must only be given to individuals with proven isovaleric acidemia and other disorders of leucine metabolism under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>16 oz (454 g) can powder 6 cans/case</p> <p>Recommended dilution (1 to 7) is ¼ cup (35 g) powder to 8 fl oz water.</p> <p>1 Tbsp powder = 9 g</p> <p>Reconstituted 115 fl oz.</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein (52% kcals) - Amino acids (without leucine)</p> <p>Fat (<3% kcals) - Negligible</p> <p>CHO (45% kcals) - Sugar, corn syrup solids</p> |
| <p>GA-1 ANAMIX EARLY YEARS (Nutricia Advanced Medical Nutrition) USE: A lysine-free and low tryptophan powdered <u>infant formula with iron</u> (metabolic) for <u>infants 0-12 months</u> with <u>glutaric acidemia type I</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, fat, vitamins, minerals and trace elements. For oral use or tube feeding. Contains DHA, ARA. Prebiotics. Unflavored. Contains milk, soy, coconut.</p> <p>Per 100 g: 473 kcals, 13.5 g pro, 23 g fat, 53 g CHO, 7.3 mg iron</p> <p>Osmolality (at 21 kcal/fl oz): 380 mOsm/kg</p> <p>CAUTION: Must only be given to infants with proven glutaric acidemia type I under strict medical supervision. Not intended as a sole source of nutrition. Not for parenteral use</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Recommended dilution = 21kcal/oz: 1 scoop (5 g) powder to every 1 fl oz water</p> <p>Reconstituted 90 fl oz</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein - Amino acids (without lysine and minimal tryptophan)</p> <p>Fat - Refined vegetable oil (High oleic sunflower, soy, non-hydrogenated coconut, canola, sunflower), DHA, ARA</p> <p>CHO - Corn syrup solids, GOS, Dried syrup, FOS,</p> |

| | | | |
|--|---|--|--|
| <p>HCU ANAMIX EARLY YEARS (Nutricia Advanced Medical Nutrition) (replaced XMET ANALOG) USE: A methionine-free <u>infant formula</u> with iron (metabolic) for <u>infants 0-12 months</u> with <u>vitamin B₆ non-responsive homocystinuria or hypermethioninemia</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, fat, vitamins, minerals and trace elements. For oral use or tube feeding. Contains DHA, ARA. Prebiotics. Unflavored. Contains milk, soy, coconut.</p> <p>Per 100 g: 473 kcals, 13.5 g pro, 23 g fat, 53 g CHO, 7.3 mg iron</p> <p>Osmolality (at 21 kcal/fl oz): 380 mOsm/kg</p> <p>CAUTION: Must only be given to infants with proven vitamin B₆ non-responsive homocystinuria or hypermethioninemia under strict medical supervision This product is not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Recommended dilution = 21kcal/oz: 1 scoop (5 g) powder to every 1 fl oz water</p> <p>Reconstituted 90 fl oz</p> <p>Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein - Amino acids (without methionine)</p> <p>Fat - Refined vegetable oil (High oleic sunflower, soy, non-hydrogenated coconut, canola, sunflower), DHA, ARA</p> <p>CHO - Corn syrup solids, GOS, Dried Syrup, FOS</p> |
| <p>HCU ANAMIX NEXT (Nutricia Advanced Medical Nutrition) USE: A methionine-free <u>medical food</u> (Nutritional) for <u>individuals over 1 year of age</u> with <u>vitamin B₆ non-responsive homocystinuria or hypermethioninemia</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, fat, vitamins, minerals and trace elements. Contains DHA. Multi-fiber mix. Plain. Contains soy, coconut.</p> <p>Per 100 g: 385 kcals, 28 g pro, 12.5 g fat, 43.2 g CHO, 10 mg iron</p> <p>Osmolality (at 1 kcal/ml): 1340 mOsm/kg</p> <p>CAUTION: Must only be given to infants with proven vitamin B₆ non-responsive homocystinuria or hypermethioninemia under strict medical supervision. <u>Must be given in conjunction with a natural protein and other nutrients to supply the methionine, fluid and general nutrition requirements of the patient in medically prescribed quantities.</u> This product is not intended as a sole source of nutrition. Not for parenteral use.</p> | <p>Approved with Medical Documentation form.</p> | <p>14.1 oz (400 g) can powder 6 cans/case</p> <p>Recommended dilution = 1.1 kcal/ml: 4 scoop (36 g) powder to every 3.5 fl oz (100ml) water</p> <p>Reconstituted 46 fl oz</p> <p>amount varies. Intake dependent on age, body weight and medical condition. Follow Rx as directed by physician</p> | <p>Protein - Amino acids (without methionine)</p> <p>Fat - Refined vegetable oil (High oleic sunflower, canola, MCT (palm kernel and/or coconut oil) sunflower), C. Cohnii oil (DHA)</p> <p>CHO - Corn syrup solids</p> |

| | | | |
|--|---|--|---|
| <p>XMET MAXAMUM (Nutricia Advanced Medical Nutrition) USE: A methionine-free <u>medical food</u> (Nutritional) for <u>children over 8 and adults (including pregnant women)</u> with <u>vitamin B₆ non-responsive homocystinuria or hypermethioninemia</u>. Contains a balanced mixture of all other essential and non-essential amino acids, CHO, vitamins, minerals and trace elements. Does not contain fat, allowing for flexibility in modifying energy intake.</p> <p>Per 100 g: 305 kcals, 40 g pro, <1 g fat, 34 g CHO, 14.7 mg iron</p> <p>Osmolality: 1 to 7 dilution - 800 mOsm/kg 1 to 5 dilution - 1190 mOsm/kg</p> <p>Flavors: orange</p> <p>CAUTION: Must only be given to individuals with proven vitamin B₆ non-responsive homocystinuria or hypermethioninemia under strict medical supervision.
